RE: Waste Management of Washington, Inc.  
Recycling Commodity Credits  
(Docket Numbers TG-090759, TG-090760, and TG-090761)

Dear Secretary Danner:

I would like to further clarify my letters dated June 4 and June 10, 2010. Snohomish County Solid Waste (SCSW) supports the extension of the current revenue sharing agreement, at 30 percent, until the time that a new agreement is developed and agreed to, not to exceed 90 days. We are working diligently with Waste Management to finalize this plan.

SCSW certifies that the extension and use of the revenue related from the sale of recyclable commodities will be used consistent with the County's Solid Waste Management Plan and the County's understanding of RCW 81.77.185, as described in the existing revenue sharing agreement. Remaining revenues will be passed on to residential customers.

Please contact Segoo Jackson at 425-388-6490 if you have any questions. Thank you for your consideration.

Sincerely,

Matt Zybas  
Solid Waste Division Director
