Subject: Extension for Certificate No. G-00256

To Whom it may Concern:

I am writing this email to request an extension in the filing of my annual report. I attended a hearing last week about the status of my permit. After the hearing I met with Betty Young and we discussed the types of hauling that require a permit in Washington. I have been emailing Betty to get further clarification on which services I provide are subject to regulation. Betty recommended I speak with Penny Ingram which I did this morning. Penny has sent me an email requesting a detailed explanation of each of the services I provide and she will then advise me as to which ones are subject to regulation.

Until Penny and I have determined the extent of the services that I provide that are subject to regulation I feel it is premature to file my annual return. I expect to conclude these discussions before the end of the month. Therefore, I am asking for an extension on filing my return until February 28th.

Thank you
