Subject: RE: CEMR/MEDIACC and MTG

On Sunday, Integra's President Jim Huesgen provided a list of questions to Warren Mickens and Roland Thornton of Qwest and Bill Cheek of CenturyLink, in response to a request from Mr. Mickens. As indicated in his list of questions, Integra anticipates that legal will also respond separately regarding the legal/regulatory issues. We have not yet received a response to my emails below. We understand that you are considering these issues internally. When you have an idea of when Qwest legal and CenturyLink legal will respond, please provide a status update at that time.

Thank you,

Karen
