Re: EON Telecom
Docket UT-160374

Dear Mrs. Maxwell:

Please accept this cover letter as an Addendum, addition and/or extension to the previous 30 day Notice of Eon Telecom that was submitted on March 16, 2023 to the Commission.

The purpose of this Addendum (as per the requirement of FCC Authorized VOIP carriers to order their own TN resources) is to reassure that all the requirements required are met.

Pursuant to this goal please find attached an Excel spread sheet that lists all of NANPA's Rate Centers along with their NPAs and LATAs within the State.

This addendum also enumerates that at least one block or code will be ordered by EON telecom from these attached Rate Centers that are under the Pooling Status of either, "M" and/or "O", as needed.

Please note this addendum will become valid as to the above date and continues in perpetuity.

Sincerely,

A handwritten signature in black ink, appearing to read "P. Maduno", with a long horizontal flourish extending to the right.

Paul Maduno, Director
