COMMISSION

RE: UE-190458—In the Matter of Pacific Power and Light Company’s 2018 Power Cost Adjustment Mechanism

UE-190882—In the Matter of the Investigation of Avista Corporation d/b/a Avista Utilities, Puget Sound Energy, and Pacific Power and Light Company Regarding Prudency of Outage and Replacement Power Costs

Pacific Power & Light Company (Pacific Power), a division of PacifiCorp, submits a motion to file supplemental testimony and the corresponding supplemental testimony and exhibits of Charles L. Tack.

Consistent with the protective orders¹ and WAC 480-07-160 that were issued in both dockets, Pacific Power has shaded the appropriate confidential and company confidential information and specified where the information is appropriately confidential or company-confidential. Company-confidential and confidential testimony and exhibits are provided to the Commission in accordance with WAC 480-07-160. The company confidential and confidential testimony and exhibits include valuable commercial information, specifically information related to specific internal operational details of generating facilities. Disclosure of such information would harm Pacific Power and other third-party co-owners of the Colstrip generating facility by making operational details and decision-making procedures available to suppliers and competitors.

It is respectfully requested that all formal correspondence and requests regarding this filing be addressed to:

By email (preferred): datarequest@pacificorp.com
