

**Internet Service Provider (“ISP”) Bound Traffic Amendment
to the Interconnection Agreement between
Qwest Corporation and
Pac-West Telecomm, Inc.
for the State of Washington**

This is an Amendment (“Amendment”) to the Interconnection Agreement between Qwest Corporation (“Qwest”), formerly known as U S WEST Communications, Inc., a Colorado corporation, and Pac-West Telecomm, Inc. (“CLEC”). CLEC and Qwest shall be known jointly as the “Parties”.

RECITALS

WHEREAS, CLEC and Qwest entered into an Interconnection Agreement (“Agreement”) which was approved by the Washington Utilities and Transportation Commission (“Commission”) on February 14, 2001, as referenced in Docket No. UT-013009, REF UT4-1298; and

WHEREAS, The FCC issued an Order on Remand and Report and Order in CC Docket 99-68 (Intercarrier Compensation for ISP-Bound Traffic); and

WHEREAS, the Parties wish to amend the Agreement to reflect the aforementioned Order under the terms and conditions contained herein.

WHEREAS, the Parties wish to amend the Agreement to add a Change of Law provision.

AGREEMENT

NOW THEREFORE, in consideration of the mutual terms, covenants and conditions contained in this Amendment and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Parties agree to the language as follows in lieu of existing contract language:

1. Definitions

For purposes of this Amendment the following definitions apply:

- 1.1 “Bill and Keep” is as defined in the FCC’s Order on Remand and Report and Order in CC Docket 99-68 (Intercarrier Compensation for ISP-Bound Traffic). Bill and Keep is an arrangement where neither of two (2) interconnecting networks charges the other for terminating traffic that originates on the other network. Instead, each network recovers from its own end users the cost of both originating traffic that it delivers to the other network and terminating traffic that it receives from the other network. Bill and Keep does not, however, preclude intercarrier charges for transport of traffic between carriers’ networks.

- 1.2 "Information Service" is as defined in the Telecommunications Act of 1996 and FCC Order on Remand and Report and Order in CC Docket 99-68 and includes ISP-bound traffic.
- 1.3 "Information Services Access" means the offering of access to Information Services Providers.
- 1.4 "ISP-Bound" is as described by the FCC in its Order on Remand and Report and Order (Intercarrier Compensation for ISP-Bound Traffic) CC Docket 99-68.

2. Exchange Service (EAS/Local) Traffic

Pursuant to the election in Section 5 of this Amendment, the Parties agree to exchange all EAS/Local (§251(b)(5)) traffic at the state ordered reciprocal compensation rate.

3. ISP-Bound Traffic

3.1 Qwest elects to exchange ISP-bound traffic at the FCC ordered rates pursuant to the FCC's Order on Remand and Report and Order (Intercarrier Compensation for ISP-Bound Traffic) CC Docket 99-68 (FCC ISP Order), effective June 14, 2001, and usage based intercarrier compensation will be applied as follows:

3.2 Compensation for presumed ISP-bound traffic exchanged pursuant to Interconnection agreements as of adoption of the FCC ISP Order, April 18, 2001:

3.2.1 Identification of ISP-Bound traffic -- Qwest will presume traffic delivered to CLEC that exceeds a 3:1 ratio of terminating (Qwest to CLEC) to originating (CLEC to Qwest) traffic is ISP-bound traffic. The Parties agree that the "3:1 ratio of terminating to originating traffic", as described in Paragraph 79 of the FCC ISP Order, will be implemented with no modifications.

3.2.2 Growth Ceilings for ISP-Bound Traffic -- Intercarrier compensation for ISP-bound traffic originated by Qwest end users and terminated by CLEC will be subject to growth ceilings. ISP-bound MOUs exceeding the growth ceiling will be subject to Bill and Keep compensation.

3.2.2.1 For the year 2001, CLEC may receive compensation, pursuant to a particular Interconnection Agreement for ISP bound minutes up to a ceiling equal to, on an annualized basis, the number of ISP bound minutes for which CLEC was entitled to compensation under that Agreement during the first quarter of 2001, plus a ten percent (10%) growth factor.

3.2.2.2 For 2002, CLEC may receive compensation, pursuant to a particular Interconnection Agreement, for ISP bound minutes up to a ceiling equal to the minutes for which it was entitled to compensation under that Agreement in 2001, plus another ten percent (10%) growth factor.

3.2.2.3 In 2003, CLEC may receive compensation, pursuant to a particular Interconnection Agreement, for ISP bound minutes up to a ceiling

equal to the 2002 ceiling applicable to that Agreement.

3.2.3 Rate Caps -- Intercarrier compensation for ISP-bound traffic exchanged between Qwest and CLEC will be billed in accordance with their existing Agreement or as follows, whichever rate is lower:

3.2.3.1 \$.0015 per MOU for six (6) months from June 14, 2001 through December 13, 2001.

3.2.3.2 \$.001 per MOU for eighteen (18) months from December 14, 2001 through June 13, 2003.

3.2.3.3 \$.0007 per MOU from June 14, 2003 until thirty six (36) months after the effective date or until further FCC action on intercarrier compensation, whichever is later.

3.2.3.4 Compensation for ISP bound traffic in Interconnection configurations not exchanging traffic pursuant to Interconnection agreements prior to adoption of the FCC ISP Order on April 18, 2001 will be on a Bill and Keep basis until further FCC action on Intercarrier compensation. This includes carrier expansion into a market it previously had not served.

4. Effective Date

This Amendment shall be deemed effective upon approval by the Commission; however, Qwest will adopt the rate-affecting provisions for both ISP bound traffic and (§251(b)(5)) of the Order as of June 14, 2001, the effective date of the Order.

5. Rate Election

The reciprocal compensation rate elected for (§251(b)(5)) traffic is (elect and sign one):

Current rate for voice traffic in the existing Interconnection Agreement:

6. Change of Law

The provisions in this Agreement are based, in large part, on the existing state of the law, rules, regulations and interpretations thereof, as of the date hereof (the Existing Rules). Among the Existing Rules are the results of arbitrated decisions by the Commission which are currently being challenged by Qwest or CLEC. Among the Existing Rules are certain FCC rules and orders that are the subject of, or affected by, the opinion issued by the Supreme Court of the United States in *AT&T Corp., et al. v. Iowa Utilities Board, et al.* on January 25, 1999. Many of the Existing Rules, including rules concerning which network elements are subject to unbundling requirements, may be changed or modified during legal proceedings that follow the Supreme Court opinion. Among the Existing Rules are the FCC's orders regarding BOCs' applications under Section 271 of the Act. Qwest is basing the offerings in this Agreement on the Existing Rules, including the FCC's orders on BOC 271 applications. Nothing in this Agreement shall be deemed an admission by Qwest concerning the interpretation or effect of the Existing Rules or an admission by Qwest that the Existing Rules should not be vacated, dismissed, stayed or modified. Nothing in this Agreement shall preclude or estop Qwest or CLEC from taking any position in any forum concerning the proper interpretation or effect of the Existing Rules or concerning whether the Existing Rules should be changed, dismissed, stayed or modified. To the extent that the Existing Rules are changed, vacated, dismissed, stayed or modified, then this Agreement and all contracts adopting all or part of this Agreement shall be amended to reflect such modification or change of the Existing Rules. Where the Parties fail to agree upon such an amendment within sixty (60) days from the effective date of the modification or change of the Existing Rules, it shall be resolved in accordance with the Dispute Resolution provision of this Agreement. It is expressly understood that this Agreement will be corrected to reflect the outcome of generic proceedings by the Commission for pricing, service standards, or other matters covered by this Agreement. This Section shall be considered part of the rates, terms and conditions of each Interconnection, service and network element arrangement contained in this Agreement, and this Section shall be considered legitimately related to the purchase of each Interconnection, service and network element arrangement contained in this Agreement.

7. Further Amendments

Except as modified herein, the provisions of the Agreement shall remain in full force and effect. Neither the Agreement nor this Amendment may be further amended or altered except by written instrument executed by an authorized representative of both Parties. This Amendment shall constitute the entire Agreement between the Parties, and supercedes all previous Agreements and Amendments entered into between the Parties with respect to the subject matter of this Amendment.

The Parties understand and agree that this Amendment will be filed with the Commission for approval. In the event the Commission rejects any portion of this Amendment, renders it inoperable or creates an ambiguity that requires further amendment, the Parties agree to meet and negotiate in good faith to arrive at a mutually acceptable modification.

The Parties intending to be legally bound have executed this Amendment as of the dates set forth below, in multiple counterparts, each of which is deemed an original, but all of which shall constitute one and the same instrument.
