

Written Comments pertaining to WAC 480-120-264(5)(a) Docket #UT-100148

We would like to comment that we are not in favor of having to put the number of minutes on our prepaid phone cards. The dollar amount is on the phone card, and the rate per minute is listed on our phone card vending machines. As the rate can change, having it pre-printed on the card itself could mean having to discard our inventory with the old rate and purchase new ones. This process could be costly and wasteful.

Sincerely,

Lisa D'Amato
