BACKGROUND

- 1 Docket TG-110792 involves a proposed tariff revision filed with the Washington Utilities and Transportation Commission (Commission) by Waste Management of Washington, Inc., d/b/a Waste Management of Skagit County (WM - Skagit), business unit of Waste Management of Washington, Inc. (WMW or the Company), April 29, 2011.

- 2 On April 29, 2011, WMW filed a petition requesting an exemption from the work paper filing requirements set out in WAC 480-07-520(4).

- 3 WAC 480-07-520(4) requires WMW to file work papers that contain detailed financial data for the Company, its affiliated interests, and its business units. The plain language of the rule requires these work papers to address Company-wide finances as a whole, not a limited subset of one or more business units.

- 4 WMW stated that WAC 480-07-520(4) would require the Company to submit into the public record certain proprietary and confidential business records unrelated to the substantive audit of the tariffs filed on behalf of WM - Skagit. In addition, WMW claims that preparing some components of the work paper requirements for WMW, as a whole, would impose a significant hardship on the Company because each business unit maintains its own general ledger, and the analysis would require manually consolidating data into one master ledger, a time-consuming and unproductive process without any commensurate benefit to the ratepayers.

- 5 WMW requested the Commission to grant an exemption from WAC 480-07-520(4) consistent with the following:
- (a) *WAC 480-07-520(4)(a) (detailed pro forma income statement)* – The required income statement is limited to WM - Skagit, the business unit providing services under the tariff that WMW is seeking to amend.
 - (b) *WAC 480-07-520(4)(b) (revenue impact calculation for proposed tariff revisions)* – The revenue impact calculation is limited to services provided by WM - Skagit under the tariff that Waste Management is seeking to amend.
 - (c) *WAC 480-07-520(4)(c) (income statement listing all revenue and expense accounts by month)* – The required income statement is limited to WM - Skagit, the business unit that provides services under the tariff that WMW is seeking to amend.
 - (d) *WAC 480-07-520(4)(d) (detailed separation of all revenue and expenses between regulated/nonregulated operations if nonregulated revenue exceeds ten percent of total company test period revenue)* – The filing provides a detailed separation of all revenue and expenses between (1) WM - Skagit, the business unit that provides services under the tariff that WMW is seeking to amend and (2) other business units within WMW with which WM - Skagit has intra-company transactions or arrangements that, but for the fact that the business units are not separate corporations, would be affiliated interest transactions. The filing also includes a detailed separation of all revenues and expenses for each of the other WMW business units performing collection operations, with expenses allocated proportionately on the basis of regulated and unregulated revenues, and a combined statement of detailed revenues and expenses for all of WMW's unregulated, non-collection operations added together.
 - (e) *WAC 480-07-520(4)(e) (detailed list of all nonregulated operations, including the rates charged for the services rendered)* – The filing includes a list of all regulated and nonregulated operations within WMW, including the rates charged. No exemption is sought for this filing requirement, but due to the extensive number of municipal contracts under which WM - Skagit operates,

information related to those unregulated operations will be provided upon Staff's request.

- (f) *WAC 480-07-520(4)(f) (detailed price-out information)* – The revenue reported is limited to services provided by WM – Skagit, the business unit providing services under the tariff that WMW is seeking to amend.
- (g) *WAC 480-07-520(4)(g) (consolidated balance sheet)* – The required consolidated balance sheet includes Waste Management, Inc., (WMI) and WMW. No exemption is sought for this filing requirement.
- (h) *WAC 480-07-520(4)(h) (detailed depreciation schedule)* – The assets for which a depreciation schedule is provided are limited to those utilized by WM - Skagit, the business unit that provides services under the tariff that WMW is seeking to amend.
- (i) *WAC 480-07-520(4)(i) (computed average investment)* – The assets for which the average investment is computed are limited to those utilized by WM - Skagit, the business unit that provides services under the tariff that WMW is seeking to amend.
- (j) *WAC 480-07-520(4)(j) (information about every transaction with affiliated interests or subsidiaries)* – Affiliated interest transactions under this requirement are limited to those between WM - Skagit, the business unit that provides services under the tariff that WMW is seeking to amend, on the one hand, and affiliates of Waste Management of Washington, Inc., including Waste Management, Inc., on the other for administrative overhead services performed by the area and corporate offices. The filing includes an income statement and balance sheet for Waste Management, Inc., and any other affiliate that is a party to such a transaction. No exemption is needed for this requirement.

6 Staff reviewed WMW's request for an exemption from WAC 480-07-520(4) and recommends that the Commission grant that request, as set forth above.
