

Clark County also requested the purchase of eight LED lights to have on hand for maintenance purposes. Clark County requested additional time to complete the project and asked for an extension until November 1, 2012.

5 Commission staff supports upgrading the 34 LED lights at the two crossings, but does not support the eight LED lights that the Petitioner would like to keep on hand for maintenance purposes. Staff must be able to verify that grant funds were spent according to the project agreement, and would have no way to monitor or verify how the additional LED lights were used outside of the project period.

6 Because of the savings on the LED lights, the cost of the upgrades, with the additional 34 lights, is lower than the original approved grant amount of \$19,684.54. The revised grant amount is \$18,600.98.

FINDINGS AND CONCLUSIONS

7 (1) After reviewing Clark County's request, and giving due consideration to all relevant matters and for good cause shown, the Commission grants the amendment to the GCPF petition and Order 01 previously approved and reduces the grant amount to \$18,600.98. The Commission also grants an extension of time to complete the project to December 31, 2012.

8 (2) The grade crossings outlined in the attached Appendix A are public railroad-highway grade crossings located within the state of Washington.
