**Re: Docket UE-240405—2024 Annual Renewable Portfolio Standard Report - Revised**

PacifiCorp d/b/a Pacific Power & Light Company (PacifiCorp) submitted its 2024 Annual Renewable Portfolio Standard Report to the Washington Utilities and Transportation Commission on May 30, 2024.

In a review with Washington Utilities and Transportation Commission staff, it was discovered that the company inadvertently reported the retail sales for average retail sales in the original report. PacifiCorp also had a few typographical errors in the narrative and in Attachment C. Finally, Commission staff requested additional clarification on the revenue requirement calculation. All modifications are detailed below:

Location	Type of Information	Explanation
Narrative Report, page 3	2023 and 2024 Average Retail Sales	Table 1: Corrected 2023 and 2024 average retail sales to 4,190,020 MWh for 2023 and 4,156,634 MWh for 2024. No impact to renewable target numbers.
Narrative Report, page 4	2023 and 2024 Average Retail Sales	Table 2: Corrected 2023 and 2024 Average retail sales to 4,190,020 MWh for 2023 and 4,156,634 MWh for 2024. No impact to renewable target numbers.
Narrative Report, page 7	Washington Department of Commerce data	Replaced image from the Washington Department of Commerce template to same data in Attachment A.
Narrative Report, page 11	Revenue Requirement Docket Reference	Corrected reference to Docket UE-210402.
Narrative Report, page 11	Revenue Requirement Calculation	Added footnote to provide explanation of revenue requirement calculation.
Attachment C Tab: (2)(a)(i) One Time (all), cell G 79	Reference label	The label in cell G 79 was updated to reflect the correct year, 2023. No impact or change to any incremental cost data.

As a result of the revisions and further guidance from staff, PacifiCorp is providing updated versions of the following documents in support of the report:

1. 2024 RPS Report Narrative
2. 2024 RPS Incremental Cost Analysis (Attachment C)
