Re: Docket UW-250104-Do Not Re-Docket

Dear Mr. Killip:

I am submitting revised pages for my general rate case filing in docket UW-250104 that was originally filed February 24, 2025. Please do not re-docket this submission.

Per Staff's demand, I am withdrawing Original Sheet No. 21 previously submitted on March 19, 2025, and re-filing my company's entire new tariff WN U-2 replacing WN U-1 to be consistent with Staff's demands. Please be advised that I do not agree that this is required and specifically do not agree with Staff's demand that Schedule X remove the originally approved Schedule X language "Water System Improvements, modifications, repairs, or replacements Actual cost +10%". This language is on my approved tariff "Received May 18, 2022 WA. UT. & Trans Comm. Original UW-220369" and confirmed by staff in emails and in the recording of the public hearing on March 27, 2025.

Please be advised that I believe that the delays, excessive document requests and refusal to allow any compensation for my time as Elder abuse and discrimination against a senior citizen. Please provide me the contact information for the State Agency to prosecute this claim if my legitimate rate increase is not approved at the April 24, 2025 hearing including a reasonable increase for the time that staff demanded I document for the last year, reduced in emails and then eliminated all together.

Sincerely,

Green Trails AB594K
