On October 23, 2023, Avista filed its annual schedule 62 update in accordance with WAC 480-106-040(1) which requires that “A utility must file by November 1st of each year, as a revision to its tariff described in WAC 480-106-030 Tariff for purchases from qualifying facilities, a schedule of estimated avoided costs that identifies, both separately and combined, its avoided cost of energy and its avoided cost of capacity.” The Company hereby resubmits its tariff sheets to update the renewal contract capacity payments to reflect paying for capacity in all delivery years, since

historical contracts by definition provide capacity in the Company's L&R position, which was inadvertently omitted in its original filing.

Updated workpapers supporting this filing are CONFIDENTIAL and should be treated as CONFIDENTIAL per WAC 480-07-160.

Avista requests the tariff revisions described herein become effective January 1, 2024. If you have any questions regarding this filing, please contact Clint Kalich at 509-495-4532 or clint.kalich@avistacorp.com or myself at 509-495-2782 or shawn.bonfield@avistacorp.com.

Sincerely,
