Longmont, CO 80503

Dear Mr. Post and Ms. Hester:

I am writing in response to a serious interruption of 911 service on July 8, 2015 and in follow-up to my letter of June 30, 2015 regarding 911 service outages on May 28 and June 15, 2015 in King County. I requested a plan from you to ensure 911 calls are not impacted by maintenance in the future and while I appreciate your correspondence of July 10 providing additional data on the May and June outages, the information provided to date falls short of my expectation of a complete plan.

On July 8, 2015, there was another 911 outage caused by a subcontractor to Intrado performing scheduled, unannounced maintenance. This outage took out one-half of the 911 service to the Seattle Police Department Public Safety Answering Point (PSAP). Simultaneously, the router on the 911 network that serves the other half of this PSAP's 911 service failed, resulting in a total loss of all 911 service for more than six hours. This is completely unacceptable for the busiest PSAP in the state.

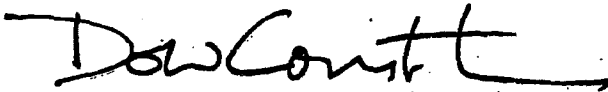

I want to make it clear that the plan to ensure that 911 calls are not impacted by maintenance must extend to all components and all vendors who provide any component of the statewide 911 system that serves King County. I also want to make it clear that all maintenance of the network serving King County must be halted until this plan has been received and accepted by King County and Washington State.

Glen F. Post, III, Mary Hester

I want to emphasize again the importance of ensuring that the people of King County are provided with reliable 911 service for every call made, without fail.

I look forward to receipt of your plan that addresses these critical life safety issues.

Sincerely,

Dow Constantine
King County Executive
