

Rating Action: Moody's downgrades Avista Corp. to Baa2, outlook stable

20 Dec 2018

Approximately \$1.1 billion of securities affected

New York, December 20, 2018 -- Moody's Investors Service ("Moody's") today downgraded Avista Corp.'s (Avista) issuer rating to Baa2 from Baa1, its senior secured and first mortgage bond ratings to A3 from A2 and the trust preferred securities rating at Avista Corp. Capital II to Baa3 from Baa2. The outlook for Avista is stable.

"Avista's cash flow is lower primarily due to tax reform, resulting in financial metrics in the mid-teens range" stated Nana Hamilton, Analyst. "In addition, Moody's sees less predictability with the regulatory outcomes in Washington and room for the company to better manage its relationship with the commission."

RATINGS RATIONALE

Pre-tax reform, deferred income taxes constituted a significant portion of Avista's operating cash flow. For example, in 2016, over a third of operating cash flow was associated with deferred taxes. Between 2013 to 2017, deferred taxes averaged about 26% of cash flow. With the lower tax rate and loss of bonus depreciation from tax reform, Avista's ratio of cash flow to debt over the next two years should be around 16%.

The Baa2 rating also looks at Avista's less predictable regulatory outcomes in Washington, where the company generates about 60% of its revenue. Although the state has some credit supportive mechanisms, such as revenue decoupling, the use of historic test years results in the need file general rate cases more frequently. In August 2018, rate base attrition adjustments, which are considered to be credit supportive, were ruled by the Washington Court of Appeals as against the state's used and useful law. This legal decision was part of an ongoing review of Avista's 2015 Washington rate case.

Separately, in April 26, 2018, the Washington Utilities and Transportation Commission (WUTC) issued a final

order in Avista's most recent electric and natural gas general rate cases filed on May 26, 2017. Although Avista had requested three-year electric and gas rate plans in its original filing, the WUTC's order provided for new rates effective May 1, 2018 for one year. In its order, the WUTC approved a net electric revenue increase of \$10.8 million and a net natural gas revenue decrease of \$2.1 million, both including the impacts from the tax cuts and jobs act (TCJA). Both electric and natural gas rate orders were based on a slightly below industry average ROEs of 9.5% and equity layers of 48.5%. In addition, the WUTC agreed to withhold \$10.4 million of the electric excess deferred federal income taxes that resulted from TCJA for the purpose of accelerating the depreciation schedule for Colstrip Units 3 and 4 to reflect a remaining useful life of those units through December 31, 2027.

Although Moody's considers the outcome of the rate case as neutral from a credit perspective, the company's relationship with the Washington commission has been more contentious than other peers'. For example, Avista's February 2016 rate filing was rejected by the WUTC in December 2016, and the company's request for reconsideration of the decision was rejected by the commission in February 2017.

On 5 December 2018, the WUTC rejected Hydro One Limited's (HOL) proposed acquisition of Avista, concluding that the proposed merger agreement is not in the best interest of Avista or its customers from a political and financial risk perspective. Avista and HOL have filed a petition for reconsideration of Washington's decision and decisions from Idaho and Oregon on the acquisition are still pending.

Outlook

The stable outlook incorporates a view that Avista's financial profile will maintain a ratio of cash flow from operations pre-working capital (CFO pre-WC) to debt in the mid-teens range and assumes that the utility will receive adequate cost recovery within its regulatory jurisdictions. The stable outlook also incorporates a view that the proposed acquisition by HOL is unlikely to be completed and that unregulated operations will remain below 15% of consolidated earnings and cash flow.

What could change the rating -- Up

A rating upgrade could be considered with a demonstrated improvement in regulatory relationships or with CFO pre-WC to debt above 19% on a sustainable basis and CFO pre-WC less dividends to debt above 13% on a sustained basis.

What could change the rating -- Down

A downgrade could be considered if there was a sustained deprecation of regulatory relationships or if CFO pre-WC to debt deteriorated to below 14% on a consistent basis. A rating downgrade could also be considered if, in the event of a successful completion of the HOL acquisition, Avista is required to provide direct financial support of HOL's acquisition debt.

The principal methodology used in these ratings was Regulated Electric and Gas Utilities published in June 2017. Please see the Rating Methodologies page on www.moodys.com for a copy of this methodology.

REGULATORY DISCLOSURES

For ratings issued on a program, series or category/class of debt, this announcement provides certain regulatory disclosures in relation to each rating of a subsequently issued bond or note of the same series or category/class of debt or pursuant to a program for which the ratings are derived exclusively from existing ratings in accordance with Moody's rating practices. For ratings issued on a support provider, this announcement provides certain regulatory disclosures in relation to the credit rating action on the support provider and in relation to each particular credit rating action for securities that derive their credit ratings from the support provider's credit rating. For provisional ratings, this announcement provides certain regulatory disclosures in relation to the provisional rating assigned, and in relation to a definitive rating that may be assigned subsequent to the final issuance of the debt, in each case where the transaction structure and terms have not changed prior to the assignment of the definitive rating in a manner that would have affected the rating. For further information please see the ratings tab on the issuer/entity page for the respective issuer on www.moodys.com.

For any affected securities or rated entities receiving direct credit support from the primary entity(ies) of this credit rating action, and whose ratings may change as a result of this credit rating action, the associated regulatory disclosures will be those of the guarantor entity. Exceptions to this approach exist for the following disclosures, if applicable to jurisdiction: Ancillary Services, Disclosure to rated entity, Disclosure from rated

entity.

Regulatory disclosures contained in this press release apply to the credit rating and, if applicable, the related rating outlook or rating review.

Please see www.moody's.com for any updates on changes to the lead rating analyst and to the Moody's legal entity that has issued the rating.

Please see the ratings tab on the issuer/entity page on www.moody's.com for additional regulatory disclosures for each credit rating.
