Dear Chairman Nelson:

Concerning our general rate filing, after the Open Meeting Session on Wednesday, August 19, 1992, I reviewed the Staff Memo which was prepared for you, as well as the Company's summary financial document which was enclosed with our original filing letter.

I believe there might be some confusion in the labeling in the "customer categories," which may have miscommunicated the Company's actual filing, or its proposed rate design.

We will work with Staff to clear up this confusion, and it might be appropriate to have the Staff Memo resubmitted to you.

Very truly yours,

Ritchie Campbell
