Subject: SBEIS for Railroad Operations Rulemaking

We are starting back to work on the Railroad Operations Rulemaking, Docket No. TR-981002. Ahmer Nizam is now the lead staff for the rulemaking, replacing Kim Dobyms. Our schedule anticipates an early November CR-102 Open Meeting presentation, so we are starting to look at whether we need to prepare an SBEIS. As we prepared one for the last railroad rulemaking, my assumption at this point is that we will need to prepare one. Johannes Mariam prepared that first one, and Kim Dobyms suggested that I ask you if he might be available to help us with preparing another SBEIS. Thanks.
