WUTC Bench Data Request 21 2nd Supplemental Response

WUTC Bench Data Request 21 2d Supplemental

Original Request:

Please recalculate Exhibit 394 with volatility attributable to the western power crisis removed.

2d Supplemental Request:

Please supply a report of the calculations used in removing energy crisis volatility in the first response to BR#21, showing the FERC price to market price ratios and using them to recalculate cost as was originally performed. We also believe that stating the source of the FERC prices or supplying the documents they are found in will clarify the record here.

2nd Supplemental Response to WUTC Bench Data Request 21

Please see Attachment WUTC Bench 21 2nd Supplemental on the enclosed CD. This spreadsheet contains two additional tabs of supporting data not included in the company's original response to WUTC Bench 21. The tabs are labeled respectively "CAISO Discount Calc" and "CAISO FERC prices." The FERC-price-to-market-price ratios are shown on the "CAISO Discount Calc" tab. FERC's surrogate prices are shown on the "CAISO FERC prices" tab. The source of FERC's surrogate prices is the California Refund Case at FERC.

WUTC Bench Data Request 22

Please compare and Contrast the PCAM proposed by the Company in this general rate case to the PCA mechanisms proposed by the Company in other jurisdictions and explain why they are different.

2nd Supplemental Response to WUTC Bench Data Request 22

The Wyoming Public Service Commission issued a Bench Order on Friday February 10, 2006, approving and adopting the Stipulation in Wyoming Docket 20000-230-ER-05 that included the adoption of the Power Cost Adjustment Mechanism outlined in WUTC Bench Request 22 1st Supplemental. The Stipulation is included as 2nd Supplemental Attachment WUTC Bench Request 22 on the enclosed CD.
