EXH. AEW-11

PSE RESPONSE TO NVEC DATA REQUEST NO. 009

ON BEHALF OF

NW ENERGY COALITION

November 22, 2019

BEFORE THE WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION

**Dockets UE-190529 & UG-190530
Puget Sound Energy
2019 General Rate Case**

NWEC DATA REQUEST NO. 009:

Please provide the following information related to PSE's residential energy efficiency programs:

- i. Number of households receiving energy efficiency incentives each year for the past 15 years (or longest duration for which the information is available, whichever is shorter).
- ii. Number of households receiving energy efficiency incentives that resulted in the conversion of heat or water heat from electric to natural gas each year for the past 15 years (or longest duration for which the information is available, whichever is shorter).

Response:

- i. Attached as Attachments A-H to Puget Sound Energy's ("PSE") Response to NWEC Data Request No. 009, please find MS Excel files which contain energy efficiency measure data for years which the information is available (2011-2018). Please note PSE does not track all energy efficiency incentives by household due to inability to collect accurate installation location information, multiple measures in a single residence, point of sale rebates, multifamily projects with numerous dwelling units, and other factors that limit this metric. Instead, PSE records the measure counts by program which are attached here. Please also note that measure counts can be individual items, square feet of retrofitted space, or bulk units such as LED lamps, rebated to the same customer.

Attachment	Description
A	2011 Measure Counts by Program
B	2012 Measure Counts by Program
C	2013 Measure Counts by Program
D	2014 Measure Counts by Program
E	2015 Measure Counts by Program
F	2016 Measure Counts by Program
G	2017 Measure Counts by Program
H	2018 Measure Counts by Program

- ii. The table below details the number of households receiving energy efficiency incentives that resulted in the conversion of heat or water heat from electric to natural gas for the time period which information is available (2009-2018).

Year	2009	2010	2011	2012	2013	2014	2015	2016	2017	2018	Total
Count	430	491	276	246	261	266	188	191	264	65	2678
