Verizon Northwest Inc. submits for filing a letter to the customer currently receiving service under Contract No. 1401ICB effective 8/21/09 in Docket No. UT-060810. The Extension Term period of the Agreement, as amended under Contract No. 1401ICB (Amendment No. 1) expired October 20, 2009. The purpose of the letter is to notify the customer that Verizon will continue the provision of Emergency Alerting and Conferencing Service ("Service") on a month to month basis, for the limited period of time until March 31, 2010, at which time Service will be discontinued and disconnected. There will be no further extension after March 31, 2010. As Service is provided on a month to month basis, the customer can terminate the Service before March 31, 2010 by providing written notice to Verizon. Verizon's provision of the Service for the limited period until March 31, 2010 shall be pursuant to the rates, terms and conditions of the Agreement, including any amendments. The equipment used to provide the service is manufacturer discontinued. The original agreement was filed under Contract No. 1321ICB, Docket No. UT-060810, effective 6/21/06 on a month to month basis for a term of three (3) years.

This service is being offered on a contractual basis because it is not available under tariff. Emergency Alerting and Conferencing Service provides the customer with the ability to instantly alert all parties connected to the conferencing bridge. The system is designed to allow any conference member to initiate a conference by simply going off hook, at which time all other entities on the system will be alerted. Once answered, the other parties are automatically linked into the conference bridge.

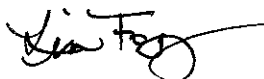

The company requests an effective date of February 20, 2010.

Verizon has previously submitted the required cost documentation for this contract under Contract No. 1321ICB in Docket No. UT-060810.

With regards to the contract, Verizon will comply with any applicable resale obligations required by RCW 80.36.170 and 80.36.180.
