To Washington Utilities & Transportation Commission
Regarding Pacific Disposal proposal for rate
increase

Please start listening to senior citizens on
fixed incomes and poor people who must also
use disposal services

This company & companies like Puget Sound Energy
have a monopoly. They work for their stockholders
& executives. To make more money, they just
want us to pay more.

This company, Pacific Disposal - at first said
we would not pay more or anything at first for
recycling. Now they pay us a pathetic amount
of 3 or 4 dollars while they increase their
charge to us for garbage & recycle

Cities & counties are taxing more
airlines -

Cost of everything - up, up & away
Start thinking about the poor & the elderly & stop
allowing these big companies from prospering
at our expense

Sincerely

Louis T Miller
