Re: GCPF Request Amendment Request for Docket No. TR-100126

BNSF would like to amend our current GCPF application under Docket No. TR-100126 to exclude fourteen crossings, see attached spreadsheet. This is a change from our original letter dated June 1, 2011. There was an internal oversight as to what crossings needed to be excluded, so the ten crossings previously submitted were incorrect. We do not believe these crossings will be completed within the time allowed by the original WUTC Order. The reason that BNSF will not be able to complete this task is that we did not have the manpower available after the ground thawed out this spring. There were a number of derailments and other emergency events that needed the manpower that was intended for these installments. Thank you for your consideration.

Respectfully,

Megan T. McIntyre
