October 29, 2010

Dear Sirs:

We are in receipt of your **Fuel Surcharge Inquiry, Docket T-101661.**

Agate Pass Transportation has never operated any service under our Auto Transportation Authority since it was granted. Our service is geared toward one-way transportation of recreational users for the John Wayne Pioneer Trail between Cedar Falls and Hyak, Washington, who would then use the trail to return to their starting point. However, since our authority was granted, the trail has not been open due to slides and tunnel closures. Therefore we have not been able to operate.

We anticipate (and have been assured by Washington State Parks) that the trail will reopen sometime in 2011. We intend to begin operating our service for hikers and bicyclists at that time.

Since we have not yet operated, we have no data available to complete your inquiry, as we've carried no passengers, purchased no fuel and operated no mileage in any of the years listed.

Sincerely,

Leslie F. Bagley (Les)
General Manager
Agate Pass Transportation, LLC
(Hopefully someday) dba "Bus-Up"
