

EXHIBIT 3

Broadband Plan

ToledoTel is fully committed to continue to provide the best broadband in the state of Washington throughout our entire service area. 100% of the homes, businesses and vacant tax parcels within our exchange have access to broadband 1 symmetrical gigabit broadband service via fiber optics. Far exceeding the low standard of 25/3. As new homes are constructed, we plan to continue this same level of service. Over the last two years, the company has built fiber to over 80 new home in our service territory increasing our average Capital Expense. The company expects this trend to continue over the next five years.

Due to this increase in demand, the company has hired three new employees since 2018 and have an offer presented to a fourth new hire.

The company is fully committed to maintenance and network upgrades throughout the five year period. First quarter 2021, the company will install a new core router in our central office allowing for more capacity, parental control features and greater redundancy.

2020 capital expenditures were: \$733,661 as of this date. The company expects this to increase over the next five years.

2021 capital expense is projected to rise to \$1,033,661 due to router upgrade/replacement.

The company's RUS monthly payment is \$94,000 and will continue well over the next five years.

The company selects Criterion Four as a method to request USF program support
