Re; Harrison Ray Tariff Increase Docket #071771

Commission:

I am writing to request denial of the current temporary rate increase by the Harrison Ray Water Company (Burbank operation) as it will greatly impact my financial status being on a fixed income.

Along with such an increase I have been financially impacted with an electrical utility increase this 2007 year. Together this increase (17 and 36% respectively) far exceeds my income increases.

Please, again deny this rate proposal.

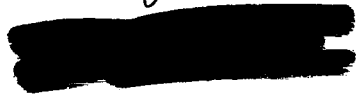

Thank You.
