elsewhere, but in this case, you have elected to put this in as the settlement. Is this something that in your opinion is needed at this time as we make this transition or is this something where we should let the market forces deal with this? And I'll just throw that out to any of the witnesses. MS. ELLIS: Maybe I'll start and just say that this is part of the settlement that we negotiated with Staff and the Public Counsel as -- in order to give additional comfort that there would be a seamless 10 11 transition of services to Northwest Fiber. We certainly don't have any difficulty in complying with the provisions of the settlement agreement and providing that, those service quality metrics. Generally, we do track these kind of metrics

15 internally anyways to internally monitor our own performance and ensure that we're providing a level of 17 service that we're intending to. So from Frontier's 18 perspective, at least of what we have to provide up to 19 20 and -- and immediately postclose, we're very comfortable 21 with that. MS. LAYCOCK: Oh, yeah, I will just also add 22 I feel what she said and also, you know, it is a no-harm

several years. 1 And also, Northwest Fiber, the management 2 team of Northwest Fiber is a -- largely the former management of Wave Broadband, but also who has now joined our team is the -- who was the president of CenturyLink for the Northwest, Brian Stading. He's joined us as chief operating officer and is now part of our team. So you have a great broad skill of management 9 as well as -- as me as chairman and our other board members have experience there. 10 CHAIRMAN DANNER: All right. Thank you very 11 12 much. MS. ELLIS: I would also just maybe add as 13 part of the transaction, there are roughly a thousand employees who are transferring, 600 of which are here in 15 16 Washington. And these are personnel who have today operated our network and deliver service to customers. 17 They are the subject matter experts. And so Northwest 18 Fiber will continue to have the benefit of those 19 employees moving forward. 20 21 MR. WEED: Yeah, thanks for adding that.

We are taking on the entire local staff.

What I was describing was the headquarters, which is

actually moving from Norwalk, Connecticut, to Washington

that the Company is -- the service quality is not

standard, and so I think this is also a way to ensure

- 4 COMMISSIONER RENDAHL: But would you
- 5 identify where those investments were made outside of
- 6 the metropolitan area?
- 7 MR. WEED: Yeah, my hesitation is just how
- 8 we're going to track it and I'm -- I'm -- I
- 9 definitely -- this -- this report was vetted by our
- 10 financial people as a -- as a way in which we're going
- to track it. We definitely can work with -- with your
- 12 Staff to ensure that we provide the information
- 13 necessary to ensure we're making that investment outside
- 14 the metro area. I just couldn't comment exactly on how
- 15 we're going to track that, whether we know the exact

- 23 MR. WEED: Yeah, I'm -- I'm confident that
- 24 we can provide metro and non-metro capex, I just -- I
- 25 just didn't want to get into the detail of how we're

- breaking it out here without having our financial peoplereview it.
- 3 CHAIRMAN DANNER: Okay. Yeah, again, I
- 4 mean, whether, you know, if -- if -- if the filing
- 5 itself didn't make it clear, I mean, whether we would
- 6 have to follow up with a request for information or
- 7 audit or anything like that, then just want to -- just
- 8 want to make sure that we can verify whatever
- 9 information so if it's given to us at too high a level,
- 10 that that may not be sufficient. So but I think we will
- 11 cross that bridge when we come to it.
- MR. WEED: Yeah, like I said, I'm confident
- 13 we can provide the information of capital investment on
- 14 this form by metro and non-metro area.
- 15 COMMISSIONER RENDAHL: So I guess, has
 - 6 Northwest Fiber contemplated the criteria for investing
- 17 outside of the -- the metropolitan area?
- 18 MR. WEED: We have definitely done our
- 19 analysis on where we plan to invest and upgrade the
- 20 network. We don't have -- since we don't own the
- company yet, we don't have the exact designs done, but
- there are many markets outside of the metro area that
- 23 fit our design criteria to -- to -- to do fiber to the
- 24 home, which is primarily where we're going to be
- 25 investing the capital. So there's many towns on --

- Page 64
- 1 Eastern Washington are ones that I have personally
- 2 looked at with the data that we had that we're excited
- 3 to go to work on and get -- get upgraded.
- CHAIRMAN DANNER: And so with the money that
- 5 you have earmarked as this \$50 million, of which at
- 6 least ten is outside of the metro area, now are you
- 7 looking -- you're still looking for places where -- I
- 8 mean, there are several underserved areas where there's
- 9 simply low probability of getting return on your
- 10 investment. Are you looking at those areas or are you
- 11 merely looking at areas where the investment is going to
- 12 pay off?

13

- MR. WEED: We're looking at the entire
- 14 network. We're acquiring in total about 1.6 million
- 15 locations served by Frontier, and our goal is to improve
- 16 service to all 1.6 million locations. How -- how -- how
- 17 deep the fiber gets to each location is -- is something
- 18 we'll work out as we finalize the design. But -- but
- 16 Well Work out as we intalize the design. But bu
- the goal is to bring better service to all locations,and the vast majority will have, you know, fiber to the
- 21 home if not very near the home.
- 22 CHAIRMAN DANNER: Okay.
- 23 COMMISSIONER RENDAHL: So this -- this
- 24 relates to -- we just received a comment from the
- 25 Northwest Telecommunications Association, was filed on

Page 65

- 1 the 17th, actually filed on the 21st, in which they
- asked that the Commission require that Northwest Fiber
- 3 not seek forbearance for all of the interconnection
- 4 agreements that -- from the FCC, and the Charter
- 5 settlement is just specific to Charter. Is -- is
- 6 that -- I mean, would it make sense to go to the FCC and
- 7 just seek for -- you know, if you're -- if you're not
- 8 seeking forbearance from one, how does that apply to the
- 9 others?
- 10 MR. WEED: Yeah, I think we are committing
- 11 to assume all of the interconnection agreements. The
- 12 difference with Charter was an -- an extension.
- 13 COMMISSIONER RENDAHL: So the commitment to
- 14 honor all the interconnection agreements, at least for a
- 15 period of three years, extends to the not seeking
- 16 forbearance?
- 17 MR. WEED: The commitment to assume all the
- 18 existing interconnection agreements. They -- they have
- 19 their own terms and their own -- their own terms and
- 20 conditions. So whatever their existing terms and
- 21 conditions are, we've agreed to assume those.
- 22 COMMISSIONER BALASBAS: Maybe a slightly
- 23 broader follow-up to that. You know, given that we have
- three separate settlement agreements in front of us, I
- 5 would like to hear both Staff and Public Counsel's

Docket No. UT-190574 - Vol. III Page 66 Page 68 1 reactions to the Charter and DoD settlements and whether 1 they have looked at the Oregon order, which just came 2 out today, and whether there will be anything there that 2 you believe we have enforcement over those and how would we do that in your mind triggers the most favored nations MR. ZAWISLAK: Thank you, Commissioner Balasbas. This is Tim Zawislak. Yeah, in preparation MR. TRINCHERO: Thank you, Chair Danner. I 5 5 for the hearing this morning, I really focussed on the have given it the most cursory of glances as it came 6 6 Staff, Public Counsel settlement agreement and the 7 conditions therein. I'm aware of the DoD and the 8 CHAIRMAN DANNER: That's why I was hoping 8 Charter settlement agreements, but I think any specific you had done a -- done a deeper dive. 9 MR. TRINCHERO: Yes, I gave it enough of a questions regarding those I would defer to the witnesses 10 10 review to know that the Oregon Commission adopted the 11 for those parties. MS. LAYCOCK: Yeah, Public Counsel does not stipulation that was presented to them in toto with no 12 have an issue with the settlements made by the other changes. That same stipulation was provided to Staff 13 13 parties, but I would also defer the questions to those and Public Counsel after it was executed and filed with 14 14 the Oregon Commission. So they've already reviewed the 15 15 COMMISSIONER BALASBAS: So I guess I would 16 settlement conditions in the Oregon agreement and -- and 16 pose the question to both the DoD and the Charter did get back to us with their input and feedback. 17 witnesses about the settlement agreements that you have 18 At this -- this juncture, we do not reached with Northwest Fiber here in this case. What 19 anticipate that it would trigger the MFN just because would be -- if you found that those settlement Staff and Public Counsel already looked at those terms 20 20 21 agreements were not being honored, I would assume you 21 and conditions, but I guess I would leave that to Staff would then come to the Commission? and Public Counsel to opine on whether they believe they 22 22 MR. SCANLON: This is Mike Scanlon speaking, might still ask for something. But we had already had 23 23 yes. 24 them look at the agreement. 24 DR. ANKUM: Would this question also be for 25 CHAIRMAN DANNER: All right. Thank you. 25 Page 67 Page 69 the Department of Defense? JUDGE KOPTA: Following up on that actually, 1

COMMISSIONER BALASBAS: Yes, for Department 2 of Defense. 3 DR. ANKUM: I -- I think that question in a way is better directed at counsel. There's a legal component to that. And I have not had conversations with my client about that possibility, so I really don't have an informed opinion there. 8 9 MR. SMITH: And this is Kyle Smith, counsel for DoD, FEA. I -- I think that under some 10 circumstances, there could be an attempt to enforce 11 portions of a settlement agreement to the Commission, 12 but for the most part, the federal government does not 13 assert claims through settlement agreements or contracts in all likelihood. These things are run by contracting 15 16 officers in terms of services purchased from a company and where the federal government sees that they have 17 contractual or statutory rights to do something, they 18 would withhold payment related to those things and then 19 cause the company to bring claim against them in 21 a -- before the appropriate board or the Court of 22 Federal Claims.

and this may be more appropriate for the witnesses, I notice that in the Oregon stipulation, that the Oregon 3 Commission approved it's a similar \$50 million 4 investment, but also there's a subsequent requirement that Northwest will spend 20 million of the total amount within the first three years. There's no comparable provision like that in Washington. Does Staff or Public 9 Counsel believe that that is through the MFN provision 10 something that should be incorporated into Washington? MR. ZAWISLAK: Speaking for Staff, I don't 11 believe so. We discussed this with the Company during 12 the preparation of the joint testimony, and -- I'm not sure which page it is right now, but it -- the Company had committed that it -- any acceleration in Oregon 16 wouldn't affect the timing in Washington. And so Washington would still get the effect of the full 50 17 million over the five-year period. 18 JUDGE KOPTA: Well, my question is a little 19 bit different, which is, should there also be a 20 21 requirement in Washington that at least \$20 million be spent within the first three years? 22 MR. ZAWISLAK: Staff, we didn't anticipate

24 that, and I think we're fairly comfortable with the --

25 the market in Washington. That company would probably

Page: 7 (66 - 69)

24 as we're asking questions of counsel, I was wondering,

perhaps Mr. Trinchero or his client could tell me, if

CHAIRMAN DANNER: And, Your Honor, as long

Page 70

- 1 want to, you know, make the investment, but I can defer
- 2 to Mr. Weed on that.
- MR. WEED: Yeah, I'll go out on a limb and
- 4 say that's not going to be a problem, and I think that's
- why it wasn't put in there. We intend -- like we're
- 6 designing as much as we can, we're working on getting
- 7 started now. So as soon as we get our last government
- 8 approval today, we'll -- you know, we're going to close
- the asset and -- and go to work. We've got construction
- teams we're hiring and we're eager to -- to invest in
- 11 the network to provide better service to the customers
- and improve the -- the performance of the business that
- we're acquiring. So it's not going to be an issue.
- We're -- and I think that's why it wasn't in the 14
- 15 provision.
- 16 CHAIRMAN DANNER: Okay. I -- actually, the
- question was -- is a good one, is whether that
- provision, because it's in the Oregon agreement, becomes
- a legal requirement here under the most favored nation
- provision. And so, I mean, your answer is -- I'm not 20
- 21 sure if I take it as aspirational or -- a commitment
- 22 by --
- MR. WEED: I will give you the commitment on 23
- record if you want it right now to move things along. 24
- 25 CHAIRMAN DANNER: All right. It's not

- 1 whether I want it or not --
- MR. WEED: I mean, if Staff decides they
- would like it, it's not a problem for Northwest Fiber to
- provide it.
- 5 CHAIRMAN DANNER: All right. Thank you.
- COMMISSIONER RENDAHL: Mr. Callaghan, did
- you want to opine?
- MR. CALLAGHAN: Not at this time, Your 8
- 9 Honor. Thank you.
- JUDGE KOPTA: Ms. Suetake? 1 0
- 11 MS. SUETAKE: Yes, thank you. With respect
- to the Oregon settlement, we did see those stipulations 12
- before our settlement was completely finalized, but I
- wouldn't go so far as to say that because no party
- raised it then, it was precluded from now that we have
- the Oregon order in place from raising it now. Just not
- to completely contradict Mr. Trinchero, but there was a 17
- timing issue to when we received even their finalized 18
- stipulation that was filed in terms of Public Counsel's 19
- ability to get authorization to settle here. 20
- 21 So I would not take it to say that we would
- 22 never raise it now after if we get this authorized using
- the most favored nation clause. I'm not saying I'm
- intending to disturb it, I just don't want it to be
- construed as we're a hundred percent not looking at that

Page 72

Page 73

- 1 now. There is a timing issue with everything involved
- 2 in our settlement. So I would take Mr. Weed at his word
- saying that they plan on spending the money within that
- time frame, though, so I appreciate that being on the
- 5 record about that.
- 6 MR. TRINCHERO: And -- and just to clarify,
- that is not inconsistent with my understanding of what I 7
- said earlier, is that at the time, neither Staff nor
- Public Counsel raised any issues, but that does not
- preclude them from doing so now under the settlement
- agreement.
- 12 CHAIRMAN DANNER: Thank you.
 - MR. TEIMOURI: That is Staff's understanding
- as well. We agree with Ms. Suetake's statement. Thank
- 15

13

- COMMISSIONER RENDAHL: Just one more 16
- follow-up mainly to Mr. Weed's comment, so this goes to 17
- Mr. Trinchero. So has Idaho finalized this as well?
- I'm not sure if this would be the last or if Idaho is --19
- has finalized yet. 20
- 21 MR. TRINCHERO: So under Idaho law, we were
- not required to seek an approval other than to get our 22
- intrastate long distance certification, which the
- Company has done. So this would be the last one. All
- 25 of the federal approvals came in in the December time

Page 71

- frame. The Montana order came out earlier this month.
- By operation of Montana law, I believe it goes into
- effect today. And of course we got the Oregon decision
- now. So the only regulatory approval that we are
- awaiting is the Washington Commission.
- 6 COMMISSIONER RENDAHL: Thank you.
- JUDGE KOPTA: I would ask one more follow-up
- 8 in terms of the \$50 million investment. It's spread out
- 9 over five years, is it your anticipation that it will
- take five years to invest that amount of money in 10
- Washington or do you have some other plan for how that 11
- money is going to get invested? 12
- MR. WEED: Yeah, and this is the commitment 13
- we agreed to, but it's -- it's likely that we will
- invest significantly more than that and -- and hopefully
- 16 in a much shorter time frame.
- 17 JUDGE KOPTA: All right. That concludes the
- questioning from the bench. We do have a bench request. 18
 - Can you let me know, is a week enough time to be able to
- provide a response to that bench request? 20
- 21 MR. O'CONNELL: Yes, I believe it would be,
- 22 Your Honor.
- JUDGE KOPTA: All right. In addition,
- 24 Ms. Suetake, has Public Counsel received any comments
- 25 from the public on this transaction?

CHAIRMAN DANNER: Is that all right with my colleagues? MS. SUETAKE: Okay. And then question about the comment that you received the hard copy today, would you like that also included in the file? CHAIRMAN DANNER: Are you talking about Mr. Slack's testimony? MS. SUETAKE: Yes. CHAIRMAN DANNER: Yes. MS. SUETAKE: Would you like that filed as well? CHAIRMAN DANNER: Sure. MS. SUETAKE: Okay. Thank you.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	are statutes that are publicly published. JUDGE KOPTA: All right. Thank you, Mr. Smith. I believe that concludes our proceeding for the day. The Commission will take this matter under advisement and enter an order in due course. Thank you very much. And we are adjourned.
