WUTC Docket No. UT-033044
Global Crossing Responses to Hot Cut Bench Requests
November 17, 2003

BENCH REQUEST NO. 37:

If the Commission determines that competitive carriers are not impaired without access to switching in the mass-market, please identify, by Qwest wire center in Washington State, what monthly volumes of hot cuts would be required within the first 12 months after the effective date of the decision: (a) to migrate existing UNE-P customers to UNE-L or another form of service, and (b) to connect new customers in the ordinary course of business. Please provide supporting documentation for these volume estimates.

RESPONSE:

Global Crossing lacks personal knowledge of the extent to which other CLECs serve UNE-P customers, and Global Crossing does not serve any customers in Washington using Qwest UNE-P. Accordingly, Global Crossing takes no position on, and has no data to provide in response to, this request.
