To Our Patrons

In starting our service one year ago we anticipated difficulties incident to all such beginnings; but we also expected the business interests of Seattle to recognize the necessity of an absolutely reliable telephone service in the rapidly intensifying methods of our growing city. Our belief in such a demand has been thoroughly confirmed by the record of the year just completed.

We are constantly increasing the territory covered by our lines and adding new subscribers in the districts where our service has been tried. Many improvements have been made that do not appear in a simple listing of names. In harmony with our original design to keep our system up to a maximum of efficiency, we are constantly adding whatever is newest that is best in both method and apparatus. We are very grateful for the many expressions of appreciation of our efforts in this direction, and assure you that nothing but the best shall be considered in our plans for the future. We are especially pleased with the increasing demand for our intercommunicating exchanges, and the words of approval from those who have these private exchanges in operation.

A FEW REASONS

WHY WE EXPECT AND SOLICIT YOUR PATRONAGE

BECAUSE

We offer a better telephone service than Seattle has ever before enjoyed.

BECAUSE

We offer superior service at very much reduced rates.

BECAUSE

We have invested in this plant in good faith that the people want better service, lower rates and more reasonable methods than prevailed here before our existence.

BECAUSE

Our prices are not "War Rates." We have but one price for everything, which will not be deviated from under any circumstances, and we treat all alike.

ALL TELEPHONES ARE ON STRICTLY COPPER METALLIC CIRCUITS.

UNLIMITED SERVICE.

All straight service conversation strictly private.
