Purpose of the proposal and its anticipated effects, including any changes in existing rules:

At the July 28,2004, Open Meeting, the Commission granted exemptions from WAC 480-70-401 (Payment options) to five solid waste companies to allow electronic fund transfers as an accepted method of payment. Other companies want to offer similar payment options, however, the current rule is too restrictive. WAC 480-70-396, Billing, would be amended to allow companies to issue electronic billing to customers on request.

The proposed rules would a) establish a minimum level of payment options companies must allow such as cash, certified funds (e.g., cashier check or money order) and personal checks; and b) allow companies, upon request by the customer, to offer electronic billing.

**Reasons supporting proposal:** Allows more flexibility for companies and customers by allowing additional methods of payment and electronic billing, and may offer opportunity for cost savings.
