

Dear Ms. Walker,

It occurred to me that Norse Home has not received official confirmation, such as a returned copy with authorized signature of an AT&T manager, of the settlement agreement that was executed by Norse Home on March 21st. On that date, the Board President signed the settlement agreement and I forwarded it with a check in the settlement amount to Southwest Credit. Informally speaking, it must have been accepted because no further invoices have been received, and in fact, Melissa Waksman of AT&T even had a pending "service charge" of \$215.07 cancelled, which had appeared on an invoice received in early March. She also expressed gratitude that our differences had been resolved. My question: Have you received any confirmation or other notice from AT&T that a satisfactory settlement was executed? This question is pursuant to the letter from Carole Washburn, dated March 6th, to quote: "We ask confirmation from the respondent, and ask that the parties make a settlement presentation within 90 days so the matter can be resolved with an order and the docket closed." For my part, I regard the matter as resolved. I am very appreciative of the assistance and counsel of the Washington State Utilities and Transportation Commission in resolving this dispute.

Robert Solem, Administrator, Norse Home
