Use of Support - WAC 480-123-130(1)(b)

The funds received by the Company during 2014 from the state universal communications services program (“Program”) represent monies that the Company formerly received through the Washington Exchange Carrier Association pooling process. As such, the funds from the Program contributed to defraying the ongoing operation and maintenance expenses of the Company. The funds from the Program are contributing to the Company's ongoing provision of high-quality basic telecommunications service to customers present in the area the Company serves

The Company undertook projects in 2014 filed with FCC Form 481 filed with the Commission on August 1, 2014 in Docket No. UT-143042.

Network Improvements/Upgrades – Voice Services – For Calendar Year 2014				
Project Description (Specific proposed improvements and/or upgrades)	Estimated Start Date	Estimated Completion Date	Service Area Name	Estimated Population
Maintain/retire/replace existing end-of-life infrastructure hardware and software	01/01/2014	12/31/2014	Hat Island	41

Network Improvements/Upgrades – Broadband Services – For Calendar Year 2014				
Project Description (Specific proposed improvements and/or upgrades)	Estimated Start Date	Estimated Completion Date	Service Area Name	Estimated Population
Maintain/retire/replace existing end-of-life infrastructure hardware and software	01/01/2014	12/31/2014	Hat Island	41

The funds received from the Program can be viewed as contributing to the Company's ability to perform those projects, including, without limitation, the repayment of loan funds.

Unfilled Consumer Requests for New Basic Telecommunications Service* - WAC 480-123-130(1)(c)

None

* Service requests that are ongoing but still within normal processing times are not counted as unfulfilled.

FCC Form 477 - WAC 480-123-130(1)(e)

Currently, portions of FCC Form 477 submitted to the FCC in an electronic file format do not create a readable report of the data. It is the Company's understanding that the FCC is developing reports that are expected to be available no later than August 1, 2015, and that will include 2014 FCC Form 477 data. If these reports are not available by that date, the Company will work with the Washington Utilities and Transportation Commission staff to provide this information in an agreed upon format in a timely manner.

Report on Operational Efficiencies/Business Plan Modifications - WAC 480-123-130(1)(f)

The Company continually reviews its operations to determine if efficiencies can be achieved. The Company already has a plan in place to concentrate on improving broadband service while continuing to provide high-quality basic telecommunications service to the customers that are located within the area that the Company serves. In addition to the projects described in the response to WAC 480-123-130(1)(b) above, the Company began a project to evaluate our business systems, and to develop a road map that will determine the system requirements and changes over the next five years. These systems include all operational systems including: customer order placement and fulfillment; customer premise service calls; call center call resolution; customer billing and payments; and includes the deployment of self-service functionality wherever

possible to improve the quality of customer service, but to also reduce Company costs and maintain competitive rates for all our telecommunications services. The funds received from the Program can be viewed as assisting in the Company's efforts to obtain operational efficiencies.
