I do not understand you people. You are looking in the wrong places for an answer to this Indian Taxing of fee land owners on the reservation. You seem to think there is no answer to the problem in the two cases that you cited. The decision has already been made for you over two hundred years ago. Look in the constitution. One of the Principles this country was built on was “ NO taxation without representation”. I would think that would be very clear to you people. No more nonsense. Do what is right and kill this tax thing. I for one am refusing to pay it because I will not pay an illegal tax.
