**BEFORE THE WASHINGTON UTILITIES AND TRANSPORTATION
COMMISSION**

In the Matter of the Application of QWEST
CORPORATION

Docket No. UT-021120

Regarding the Sale and Transfer of Qwest Dex
to Dex Holdings LLC, a nonaffiliate

**DIRECT TESTIMONY OF
WILLIAM E. KENNARD
ON BEHALF OF
DEX HOLDINGS LLC**

JANUARY 17, 2003

1 **I. INTRODUCTION AND BACKGROUND**

2 Q. PLEASE STATE YOUR NAME FOR THE RECORD.

3 A. William E. Kennard.

4 Q. WHO IS YOUR EMPLOYER AND WHAT IS YOUR CURRENT POSITION?

5 A. I am Managing Director of the Telecommunications and Media Group of The
6 Carlyle Group (“Carlyle”). My business address is 1001 Pennsylvania Avenue,
7 N.W., Washington, D.C. I have held this position since May 2001.

8 Q. PLEASE DETAIL YOUR WORK EXPERIENCE.

9 A. In November 1997, President Bill Clinton appointed me as Chairman of the Federal
10 Communications Commission (“FCC”). I served in that position through January
11 2001. As Chairman, I led the FCC’s implementation of the Telecommunications Act
12 of 1996, the first comprehensive overhaul of the nation’s telecommunications laws
13 since the New Deal era when the FCC was created. I guided the FCC’s adoption of
14 procompetitive rules that advanced the central goal of the 1996 Act, which is to bring
15 consumers the benefits of competition in all areas of the telecommunications
16 industry, including competition between and among incumbent local exchange
17 carriers (“ILECs”), interexchange carriers, new entrants, and others.

18 Before serving as FCC Chairman, I served as the FCC’s General Counsel
19 from December 1993 until October 1997. As the FCC’s chief legal officer, I was
20 responsible for advising the FCC on all matters involving the interpretation and
21 application of the Communications Act of 1934, as amended, as well as other
22 enacted or proposed legislation or regulations affecting the responsibilities and
23 jurisdiction of the FCC and defending its many orders in court. Before joining the
24 FCC, I was a partner in the Washington, D.C. law firm of Verner, Liipfert, Bernhard,
25 McPherson & Hand. From July 1983 through April 1984, I was the Assistant
26 General Counsel of the National Association of Broadcasters. From September 1982

1 to July 1983, I was an associate attorney at the Verner, Liipfert firm. I received a
2 one-year legal fellowship from the National Association of Broadcasters between
3 September 1981 and September 1982.

4 Q. WOULD YOU PLEASE DESCRIBE YOUR EDUCATIONAL BACKGROUND
5 BRIEFLY?

6 A. I received my Juris Doctor degree from the Yale Law School in May 1981. I
7 received an A.B. with distinction in communications from Stanford University in
8 1978.

9 Q. ARE YOU A MEMBER OF ANY PROFESSIONAL ORGANIZATIONS?

10 A. Yes. I am admitted to the bar in the state of California and in the District of

11 Columbia. Q. WHAT IS THE PURPOSE OF YOUR TESTIMONY?

12 A. I will address three areas. First, I will show that the Buyer is exceptionally well
13 qualified to own and operate Dex. Second, I will discuss the reasons why the Buyer
14 will have incentives to ensure that it provides the full range of high-quality services
15 necessary for Qwest Corporation to meet its directory publishing obligations. Third,
16 I will address certain reasons why the proposed sale of Qwest Dex as provided in the
17 Rodney Agreement and related transaction documents is in the public interest.

18 Q. DO YOU INTEND TO ADDRESS THE FINANCIAL IMPACTS OF THE
19 TRANSACTIONS TO QWEST?

20 A. No. I believe that Qwest is in a better position to address the financial impacts of
21 this transaction to itself. Moreover, I understand that Qwest will address this issue in
22 this proceeding.

23 Q. PLEASE DESCRIBE THE PROPOSED SALE VERY BRIEFLY AS
24 BACKGROUND TO YOUR TESTIMONY.

25 A. The sale is structured to take place in two parts. In the first phase of the transaction,
26 under the Dexter Agreement, Dex Media East, LLC, a subsidiary of Dex Media, Inc.,

1 and an indirect subsidiary of Dex Holdings LLC (the “Buyer”), acquired the
2 operations of Qwest Dex in the eastern portion of Qwest’s local exchange operating
3 territory, including the states of Colorado, Iowa, Minnesota, Nebraska, New Mexico,
4 North Dakota, and South Dakota. That phase of the sale closed on November 8,
5 2002. Just prior to that closing, Qwest Dex, Inc. transferred its assets and liabilities
6 in each of those states to its newly created subsidiary, SGN LLC. At the closing, the
7 ownership of SGN LLC transferred from Qwest Dex to Dex Media East. The
8 Rodney Agreement provides for a similar course of events to take place just prior to
9 and at the closing of the Dex Media West phase of the transaction. At the Dex
10 Media West closing, Qwest Dex, Inc. will transfer its remaining assets and liabilities,
11 including those in Washington, Arizona, Idaho, Montana, Oregon, Utah, and
12 Wyoming, to GPP LLC, a separate newly-created subsidiary of Qwest Dex, Inc., and
13 transfer ownership of GPP LLC to Dex Media West, LLC, also a subsidiary of Dex
14 Media, Inc, and an indirect subsidiary of Dex Holdings LLC.

15 **II. BUYER’S QUALIFICATIONS/REGULATORY COMPLIANCE**

16 Q. PLEASE IDENTIFY THE BUYER.

17 A. Dex Holdings LLC, the Buyer, is a Delaware limited liability company recently
18 formed for the purpose of purchasing the Dex publishing business. The Buyer is
19 owned by The Carlyle Group (“Carlyle”) and Welsh, Carson, Anderson & Stowe
20 (“WCAS”) (“Owners”). The Owners are established private equity investment
21 companies.

22 Q. WOULD YOU ALSO PROVIDE SOME BACKGROUND REGARDING THE
23 OWNERS?

24 A. Carlyle is a private global investment firm that originates, structures and acts as lead
25 equity investor in management-led buyouts, strategic minority equity investments,
26 equity private placements, consolidations and buildups, and growth capital

1 financings. Since its inception, the firm has invested more than \$7.2 billion of equity
2 in 263 transactions with an aggregate acquisition value of over \$19 billion. As of
3 September 30, 2002, the firm had more than \$13.9 billion of committed capital under
4 management. We are headquartered in Washington, DC, and serve a diverse base of
5 more than 550 investors in 55 countries worldwide. Carlyle has deep knowledge and
6 experience across disciplines and industries that give it a competitive edge in all the
7 markets in which it operates.

8 WCAS is one of the oldest and largest private equity investment firms in the
9 United States. Founded in 1979, it has raised 12 investment partnerships with total
10 capital of \$12 billion. Its investment activities are exclusively focused in three
11 industries: communications, information services, and healthcare. WCAS has
12 completed over 100 buyouts and over 650 add-on acquisitions since its founding.
13 Combined, Carlyle and WCAS have over \$25 billion of committed capital under
14 management. The Buyer's ability to raise the large amounts of capital needed to
15 purchase, fund, and operate Dex has already been demonstrated in funding and
16 closing the Dexter portion of the transaction, which required \$2.75 billion in debt
17 and equity capital.

18 Q. WHAT EXPERIENCE DO THE OWNERS HAVE IN OWNING AND
19 MANAGING COMMUNICATIONS-RELATED BUSINESSES?

20 A. Carlyle and WCAS are among the largest and most successful private equity
21 investment firms in the world. Their successes in communications investing result
22 from investment professionals who have deep understanding of and respect for the
23 unique responsibilities of owning regulated businesses. At Carlyle, one of my
24 partners is James A. Attwood, who formerly served as Verizon's Executive Vice
25 President for Strategy and served in that same capacity for GTE. Mr. Attwood is Co-
26 Chairman of the Board of Directors of the Buyer. I also serve on the Buyer's board

1 as a director and member of the Audit Committee. Other senior partners of Carlyle
2 include former Secretary of State, Secretary of the Treasury, and White House Chief
3 of Staff James A. Baker III and former Securities and Exchange Commission
4 Chairman Arthur Levitt. At WCAS, Anthony J. De Nicola serves as Co-Chair of the
5 Buyer's board of directors and brings several years of experience in overseeing
6 WCAS's communications investments. WCAS's portfolio companies in
7 telecommunications include Centennial Communications (a provider of rural
8 wireless services), Valor Telecommunications (a rural wireline provider), and
9 Amdocs (a provider of OSS and billing software to the communications industry).
10 Carlyle also has extensive experience as a successful investor in communications and
11 publishing. Its ownership experience includes Pacific Telecom (submarine fiber-
12 optic cable), Neptune Communications (high-speed undersea fiber-optic networks),
13 Genesis Cable (a U.S. cable television operator), Prime Cable (cable television
14 operator in Montgomery County, Maryland, and Arlington County, Virginia),
15 Entertainment Publications, Inc. (promotional coupon publishing and advertising),
16 Taiwan Broadband (largest cable television provider in Taiwan), eAccess Broadband
17 Services (Japanese ADSL provider), and Videotron Telecom Ltée (Canadian
18 facilities-based CLEC),

19 **III. BUYER'S PLANS TO PROVIDE HIGH-QUALITY SERVICES**
20 **TO QWEST CORPORATION**

21 Q. HOW CAN THE COMMISSION BE CERTAIN THAT QWEST CORPORATION
22 WILL BE ABLE TO CONTINUE TO MEET ALL OF ITS REGULATORY
23 OBLIGATIONS AND OTHER RESPONSIBILITIES REGARDING LISTINGS
24 AND DIRECTORY PUBLICATION AND DISTRIBUTION AFTER DEX IS
25 SOLD?
26

1 A. There are several reasons. First, no change in the management of Dex is
2 contemplated as a result of this transaction. The current management will stay on
3 and is very experienced in publishing and distributing directories in compliance with
4 regulatory requirements. The testimony filed in this docket by George Burnett, the
5 Chief Executive Officer of Dex, describes his qualifications as well as some of the
6 accomplishments of Dex. Second, as I described earlier, both of the Owners have
7 extensive experience in managing communications-related businesses, and
8 understand the important position that the Commission's directory publishing
9 requirements occupy. Finally, the penalty for the Buyer's failure to perform the
10 publishing agreement at a level sufficient to meet Qwest's regulatory responsibilities
11 would be severe—potential termination of the publishing agreement.

12 Q. YOU DISCUSSED THE LEADERSHIP OF DEX, DEX HOLDINGS, AND ITS
13 OWNERS AFTER THE TRANSACTION. WHAT ABOUT THE RANK AND
14 FILE WORKERS AT DEX?

15 A. One of the critical assets that we are acquiring is the existing management and staff
16 at Dex. We do not want to jeopardize those human assets by engaging in
17 shortsighted and imprudent cost-cutting measures, because the value of that human
18 capital cannot be understated. Dex is already one of the most efficient directory
19 publishers in the country. In addition, we plan to accept the collective bargaining
20 agreements with the two unions that represent Dex workers. In fact, Qwest Dex and
21 Dex Media recently agreed with the International Brotherhood of Electrical Workers
22 ("IBEW") to extend the current agreement from May 2003 to May 2006. The
23 agreement, which has been ratified by the IBEW, binds Qwest's successor and
24 provides that there will be no material changes in compensation or benefits through
25 the end of the extended term. Further, for the Communications Workers of America
26 and other non-IBEW employees, Dex Media will keep in place, or put in place,

1 pension, medical, life, and other benefit plans that are comparable to Qwest's current
2 plans.

3 Q. WHAT ARE THE BUYER'S PLANS FOR QWEST DEX?

4 A. Dex Media East has already acquired Qwest's directory business in the eastern half
5 of the Qwest states. The best way to characterize how things are working is
6 "business as usual." The same will hold true after Dex Media West acquires the
7 remaining Dex operations in the western region. We plan to continue to publish the
8 high quality white and yellow pages that are familiar to Qwest's local exchange
9 customers and other directory users. We do not plan any major changes to the
10 directories. Qwest subscribers and other directory users will continue to see the
11 same familiar look and contents of the product. Dex Holdings will continue to
12 include the government listings, community information, and other features on
13 which directory users have come to rely. While we plan to continue to refine and
14 improve the Dex directories and to pursue expansion in related areas, such as
15 Internet directory publishing, changes will be incremental, not radical.

16 Q. WHAT ENSURES THAT DEX WILL CONTINUE TO MEET REGULATORY
17 REQUIREMENTS AND QWEST'S OTHER DIRECTORY RESPONSIBILITIES?

18 A. The Buyer is contractually bound to provide services necessary to enable Qwest to
19 satisfy its directory publishing obligations that exist under Washington state statutes,
20 regulations, interconnection agreements with CLECs, and perhaps other sources.
21 More importantly, Dex's reputation and substantial goodwill are based on the
22 public's perception that its directories are accurate and complete and on advertisers'
23 confidence that the directories are widely distributed. This is an asset that the Buyer
24 will protect above all by taking great pains to ensure full and complete listings and
25 full and widespread distribution of the directories themselves, including placement at
26 payphone stations. Thus, Dex will continue to include CLEC listings on the same

1 basis as Qwest's own, and will ensure that every customer within the coverage area
2 of the directory is able to obtain a copy of the directory, without regard for the
3 identity of the subscriber's local exchange carrier ("LEC").

4 Q. WHAT IS THE BUYER'S PLAN REGARDING PUBLISHING SCHEDULES?

5 A. We do not plan to change publishing intervals. Most directories are published
6 annually. We plan to continue with the current intervals, unless the public interest
7 requires a change.

8 Q. WHAT WOULD BE AN EXAMPLE OF A NECESSARY CHANGE TO A
9 PUBLISHING SCHEDULE?

10 A. If the area covered by a directory were undergoing a massive numbering change or
11 the introduction of a new NPA it might be prudent to either delay or advance the
12 publication of the directory or directories for that area.

13 Q. WHAT IS THE LIKELY COMPETITIVE IMPACT OF THE DIRECTORY
14 PUBLISHING AGREEMENT BETWEEN QWEST AND DEX HOLDINGS?

15 A. The publishing agreement and related documents ensure that no LEC will have any
16 competitive advantage or be subject to any disadvantage. The agreements provide
17 that all of the obligations that would have applied to Qwest Dex will continue to be
18 met pursuant to the publishing agreement between Dex Holdings and Qwest
19 Corporation. Included in those obligations are provisions to ensure that both
20 Qwest's and CLECs' customers are properly listed. In the CLECs' case, the
21 publishing agreement ensures that the Buyer will take actions necessary to ensure
22 that Qwest Corporation meets its obligations in its interconnection agreements with
23 CLECs. Again, not only will Qwest's local exchange customers not notice a change
24 upon closing of the sale, CLECs likewise will experience no material change in how
25 their local exchange customers' listings are handled. As an independent publisher,
26 we have an incentive to be even-handed in our treatment of all carriers.

1 **IV. OTHER PUBLIC INTEREST BENEFITS**

2 Q. ARE THERE OTHER PUBLIC INTEREST BENEFITS OF THIS
3 TRANSACTION?

4 A. Yes. I see benefits flowing merely from the fact that the new owner is not an
5 incumbent LEC. As the Buyer innovates and responds to increasing competition in
6 the directory business, it will look at the business from the consumer's perspective
7 and that of its advertising customers, rather than the perspective of a
8 telecommunications provider. Today, Dex operates as part of an overall enterprise
9 that includes local exchange, interexchange, and other operating entities. That
10 enterprise is financially obligated to use the Dex profits to service a substantial debt
11 load and to subsidize local exchange rates.

12 As an independent entity, Dex will have the ability to use the profits from its
13 directory publishing business to research and develop new and improved products,
14 maximizing the value of the directory publishing assets and providing new services
15 to consumers and advertisers alike. In the past few years, we have all seen how the
16 value of noncore assets can be maximized and services provided more efficiently and
17 in a more competitively neutral way when those assets are divested from large
18 ILECs. We have seen these benefits in the wireless tower, billing services, and
19 customer care sectors. I also believe that Qwest's local exchange customers are
20 benefiting financially from Qwest's decision to retain the directory business until
21 now. Finally, Qwest's decision to sell will give its local exchange customers a
22 tangible financial benefit while eliminating their exposure to the risks inherent in the
23 increasingly competitive business of directory publishing.

24 Q. PLEASE START BY EXPLAINING WHY QWEST'S CUSTOMERS BENEFIT
25 FROM THE TIMING OF THE SALE OF DEX.

26

1 A. Qwest is to be commended for how it has developed and grown its directory
2 publishing affiliate. Few could have foreseen that yellow pages publishing would
3 have seen the kind of growth in profits and revenues that Qwest was able to obtain in
4 the 19 years ensuing since 1984. Qwest might have sold its directory publishing
5 business in 1984 to a nonaffiliate, as some LECs did. As we know with 20/20
6 hindsight, Qwest would have received far less for the publishing business in 1984
7 than Dex Holdings is proposing to pay today. The relationship was obviously “win-
8 win” for Qwest and its local exchange customers, reflecting the growth of Dex since
9 1984.

10 Q. GIVEN HISTORICAL REVENUE GROWTH AT DEX, WOULD QWEST’S
11 LOCAL EXCHANGE CUSTOMERS BE BETTER OFF IF QWEST SIMPLY
12 RETAINED DEX?

13 A. A key component of the answer to this question is the financial imperative that
14 motivated Qwest’s decision to divest its yellow pages business. As I noted
15 previously, it is more appropriate for Qwest to address this issue. But putting the
16 financial imperative issue aside, it is not possible to answer that question with any
17 degree of certainty. Market trends do suggest, however, that the yellow pages
18 business will become increasingly competitive, making that business more difficult
19 to operate as a division of an ILEC. Some of these changes are driven by regulatory
20 factors. For example, while I was Chairman of the FCC, we issued rules
21 implementing Section 222, an important procompetitive provision of the
22 Telecommunications Act of 1996. The FCC’s implementing rules are designed to
23 ensure that all directory publishers, not just the affiliate or “official” directory
24 publisher of the LEC, have timely, accurate, and nondiscriminatory access to listing
25 information necessary to publish full and complete directories. The rules ensure that
26

1 all directory publishers have access to listing information at reasonable and
2 nondiscriminatory rates.

3 In issuing these rules, we intended to prevent or remove any barriers to entry
4 that may have existed to the yellow pages business for publishers that are not
5 affiliated with a LEC. I believe we accomplished that. Thus, because the publishing
6 business is competitive and with limited barriers to entry, Qwest's local exchange
7 customers are exposed to the risk that Dex's revenues could decline or expenses
8 could increase in order for Dex to retain its position in the market. After Dex
9 becomes an independently owned yellow pages business, Qwest's customers no
10 longer must assume this risk, and Dex will be better able to respond to competitive
11 pressures. Thus, it should be possible today to satisfy the interests of Qwest's local
12 exchange customers in a manner that is fair to both Qwest and Washington
13 consumers, that removes the risk to Qwest's customers, and that frees Dex to
14 continue evolving to meet new market challenges.

15 Q. IN ADDRESSING THE INTERESTS OF QWEST'S LOCAL EXCHANGE
16 CUSTOMERS, SHOULD THE COMMISSION TRY INDEPENDENTLY TO
17 DETERMINE THE VALUE OF DEX?

18 A. No. Without the benefit of a crystal ball, the best evidence of the fair market value
19 of Dex is the actual price the competitive market produced. It would be impossible
20 for the Commission to value Dex more accurately by second-guessing the market.
21 The essential nature of the sale of a going concern business is that the purchase price
22 is an up front payment of the present value of its expected future profits. Thus,
23 when—as here—two very sophisticated parties, each armed with all the information
24 it can reasonably obtain and each with other options, negotiate an arm's-length price
25 for a business, the resulting price is by definition the "fair market value." That is
26 particularly the case here because Qwest conducted a robust auction for the sale of

1 Dex. Bidders included several of the country's most well-funded private equity
2 firms. Therefore, the purchase price reflects the market's best assumption of future
3 profits.

4 Buyer and seller have both thoroughly and rationally evaluated all the risks.
5 The parties' expectations may or may not be borne out. But it is impossible, and
6 invariably far less precise, for policymakers to divine their own market price by
7 second-guessing an auction process among parties willing to put very significant
8 capital at risk. Thus, it is unwarranted to assume that Qwest's local exchange
9 customers would be better off financially based on historic treatment of the
10 publishing business if regulatory action prevented the transaction from closing.
11 Similarly, it would be unwarranted to set regulatory concessions based on a value
12 greater than the actual value the market has placed on Dex. Policymakers in this and
13 other states reviewing the transaction should consider very carefully whether they
14 want to have local exchange customers effectively "stay invested" in the increasingly
15 competitive directory publishing business—which would be the result if they were to
16 block the sale either outright or indirectly by setting the regulatory concessions so
17 high as to compel that result.

18 Q. DOES THE THREAT TO REVENUE GROWTH COME ONLY FROM
19 COMPETING PUBLISHERS OF PRINTED DIRECTORIES?

20 A. No. In addition, the growth in Internet directory publishing has been significant.
21 Dex will have to continue to innovate to stay ahead of competitors in this
22 increasingly competitive sector. The barriers to entry in Internet publishing are
23 minimal. Thus, with nondiscriminatory access to directory listing information, Dex
24 can expect Internet directory publishing to be highly competitive and, accordingly,
25 will see downward pressure on advertising rates.

26

1 V. CONCLUSION

2 Q. COULD YOU SUMMARIZE YOUR TESTIMONY FROM THE PERSPECTIVE
3 OF A REGULATORY REVIEW OF THE PROPOSED SALE UNDER A "PUBLIC
4 INTEREST" STANDARD?

5 A. I appreciate that the Commission wants to make sure that it is doing everything that
6 it can to protect the interests of Qwest's local exchange customers. But the
7 Commission has every reason to find the transaction to be in the public interest and
8 no reasons, other than speculative ones, to find that it is not. The Buyer is well
9 qualified to own Dex and is well positioned to invest in this business and improve its
10 products and services. The Buyer will thus be able to maximize the value of the Dex
11 assets and to do so in a way that is competitively neutral and thereby further other
12 important policy goals. For these reasons, this transaction is the right thing at the
13 right time from a public interest standpoint. The directories will only get better. All
14 regulatory requirements for publishing and distributing directories will be met, and
15 there is no reason to believe that Qwest's local exchange customers would be better
16 off financially if Qwest retained Dex. No one has a crystal ball, not Qwest, not the
17 Buyer, and not the Commission. Over the last 18 years Qwest's local exchange
18 customers have had the benefit of increasing imputation. As the fine print in
19 investment ads always notes, however, "past performance is no guarantee of future
20 returns."

21 Q. DOES THIS CONCLUDE YOUR TESTIMONY?

22 A. Yes. Thank you.

23

24
