Subject: PO-16 Software Release Timeliness -- PID Updates Proposed

TO TAG MEMBERS:

As the Change Management Process (CMP) has undergone refinements, of late, it has become apparent that the language of PO-16 has become somewhat out-of-date and less clear, in light of the latest guidelines in the CMP website. Accordingly, Qwest proposes to update PO-16 as indicated in the redlined version attached hereto. These refinements preserve the intent of the PID, as originally accepted by the parties, while updating and clarifying certain elements of its language, so as to be more clearly in alignment with CMP developments.

Regards,
Mike Williams
Qwest
