**SUBJECT: Completion of Meter Deployment**

**REQUEST:**

Please identify the date that Avista anticipates finishing installation of AMI meters. Please provide this information for both gas and electric services.

**RESPONSE:**

Avista has approximately 300 installations remaining which include but not inclusive of the following:

- Hard to reach seasonal areas in our northern service territory.
- Locations that are indoors where the customer is not allowing access due to COVID concerns.
- Customer premises with issues related to physical access or obstructions.
- Remaining cellular meter deployments.

Our goal is to have these completed by June of 2021.
