**Re: Compliance Filing—Order 12 in Docket UE-152253
Attestation and Actual Cost Updates for Pro Forma Rate Base Additions**

Pacific Power & Light Company (Pacific Power or Company), a division of PacifiCorp, submits for filing the Attestation of Etta Lockey regarding the Supervisory Control and Data Acquisition Energy Management System, the second sequence of the Union Gap Substation Upgrade, and the major maintenance overhaul at Unit 4 of the Jim Bridger generating plant, including the selective catalytic reduction system. Also enclosed are supporting documents for actual booked expenditures and rate base amounts for these projects.

The final capital project costs included in the confidential attachment are provided in accordance with Order 02, which is the protective order in this docket. The confidential attachment and workpapers contain sensitive contract cost information for the Jim Bridger Unit 4 overhaul projects. Disclosure of such information would harm Pacific Power by an unfair competitive disadvantage. The Company is also enclosing a redacted version of the confidential attachment in accordance with the protective order. The confidential workpapers are confidential in their entirety.

It is respectfully requested that all formal correspondence and requests regarding this filing be addressed to:

By e-mail (preferred): datarequest@pacificorp.com

By regular mail: Data Request Response Center
