(4) Installation or Activation of Basic Service Report - 5 Day Rule

| Month, Year | Total Number Of Orders Per Month | Total Number and Percentage of Orders Not Completed Within 5 Business Days After Order Date or After Customer Desired Due Date | |
|----------------|----------------------------------|--|-------------------------------------|
| December, 2009 | CONFIDENTIAL | CONFIDENTIAL | 20.83% |
| | | Number Completed in 5 Bus days: | Percentage Completed in 5 Bus Days: |
| | | CONFIDENTIAL | 79.17% |

Rule:

(4) Installation or Activation of Basic Service Report

The report must state the total number of orders taken, by central office, in each month for all orders of up to the initial five access lines as required by WAC 480-120-105 (Company performance standards for installation or activation of access lines). The report must include orders with due dates later than five days as requested by a customer. The installation or activation of basic service report must state, by central office, of the total orders taken for the month, the number of orders that the company was unable to complete within five business days after the order date or by a later date as requested by the customer.

NOTES:

Information is not available by Central Office.

We are unable to distinguish between orders that are for the initial 5 access lines or more than 5 access lines. Therefore, we have included all orders even if they have more than 5 access lines.

Service is provided by the underlying LEC.

MASS MARKETS SERVICE QUALITY REPORT - YEAR 2009

MCI/metro Access Transmission Services LLC d/b/a Verizon Access Transmission Services

WAC 480-120-439 Service Quality Performance Reports

(6) Summary Trouble Report

| Month, Year | Total Number of Trouble Report (State Level) | Total Number of Access Lines as of Month End (State Level) | Total Number of Trouble Reports as a Ratio per 100 Access Line Counts (Standard: Max 4) |
|----------------|--|--|---|
| December, 2009 | CONFIDENTIAL | CONFIDENTIAL | 1.01 |

Rule:

(6) Summary Trouble Report

Each month companies must submit a report reflecting the standard established in WAC 480-120-438 (Trouble report standard). The report must include the number of reports by central office and the number of lines served by the central office. In addition, the report must include an explanation of causes for each central office that exceeds the service quality standard established in WAC 480-120-438. The reports, including repeated reports, must be presented as a ratio per one hundred lines in service. The reports caused by customer-provided equipment, inside wiring, force majeure, or outages of service caused by persons or entities other than the local exchange company should not be included in this report.

State rules require that the number of trouble reports not exceed four per hundred access lines for: (a) two consecutive months, or (b) four months in any 12-month period. A "trouble report" is a report by a customer that a line is out of service or not working properly. This standard does not apply to trouble reports relating to customers' equipment or to extraordinary or abnormal conditions.

Notes:

Information is not available on a central office level.

Confidential Information per WAC 480-07-160

(7) Switching Report

| Month, Year | Percentage of calls that received Dial Tone Within 3 Seconds (Standard 98%) | Percentage of Placed Calls that Did Not Encounter an Intra-switch Blocking Condition (Standard 98%) | Notes re. Any Other Type of Switching Problem |
|----------------|---|---|---|
| December, 2009 | Service is provided by the Underlying LEC | Service is provided by the Underlying LEC | Service is provided by the Underlying LEC |

Rule:

(7) Switching Report

Any company experiencing switching problems in excess of the standard [WAC 480-120-401] must report the problems to the Commission. For each switch, companies must meet the minimum standards during the switch's average busy-hour of the average busy season.

Notes:

Service is provided by the underlying LEC, no information is available for this measure.

(8) Interoffice, Inter-company and Inter-exchange Trunk Blocking Report

| Month, Year | Percentage of trunk groups experience less than 1/2 of 1% of blocking for inter-toll & inter-tandem (Standard 99%) | Percentage of trunk groups must experience less than 1% blocking for local & EAS inter-office trunk facilities (Standard 99%) | Did 100% of trunk groups experience less than 1% blocking for E-911? |
|----------------|--|---|--|
| December, 2009 | Service is provided by the Underlying LEC | Service is provided by the Underlying LEC | Service is provided by the Underlying LEC |

Rule:

(8) Interoffice, Intercompany and Interexchange Trunk Blocking Report

Companies must meet the above mentioned standards during average busy-hour. Each company that experiences trunk blocking in excess of the standard in WAC 480-120-401 (3) (Interoffice facilities) and (5) (Service to interexchange companies) must report each trunk group that does not meet the performance standards. For each trunk group not meeting the performance standards, the report must include the peak percent blocking level experienced during the preceding month, the number of trunks in the trunk group, the busy hour when peak blockage occurs, and whether the problem concerns a standard in WAC 480-120-401 (3) or (5). The report must include an explanation of steps being taken to relieve blockage on any trunk groups that do not meet the standard for two consecutive months.

Notes:

Service is provided by the underlying LEC, no information is available for this measure.
