Ms. Washburn:

AT&T, on behalf of AT&T Communications of the Pacific Northwest, Inc., TCG Seattle and TCG Oregon, provide the following response to your letter dated November 4, 2003
Re: Rulemaking on Emergency Information, Docket No. UT-031755.

AT&T has very comprehensive disaster recovery plans for any event – physical or cyber, natural causes or manmade. Because AT&T is one of the largest telecommunications companies in the world, it is critical to have plans ready at a moment's notice to react to any threat. It has been determined that AT&T's plans are most effective when coordinated at a national level. The information below provides the contacts available to Washington to react quickly and efficiently to any disaster.

AT&T's disaster services coordinator is Victor DeVito. He can be reached at 866-466-2288, prompt 9. If Mr. DeVito is unavailable, this same prompt will go to the supervisor on duty. An alternate contact is AT&T Corporate Security at 800-822-9009.

If local contact is necessary, the names and numbers below can be used.
