<110> Has your company received its ETC certification from the FCC?  (yes / no )

<111> If your answer to Line <110> is yes, do you have an existing §54.202(a) "5 year plan" filed with the FCC?  (yes / no )

If your answer to Line <111> is yes, then you are required to file a progress report, on line <112> delineating the status of your company's existing § 54.202(a) "5 year plan" on file with the FCC, as it relates to your provision of voice telephony service.

<112> Attach Five-Year Service Quality Improvement Plan or, in subsequent years, your annual progress report filed pursuant to 47 C.F.R. § 54.313(a)(1). If your company is a CETC which only receives frozen support, your progress report is only required to address voice telephony service.

Please check these boxes below to confirm that the attached PDF, on line 112, contains a progress report on its five-year service quality improvement plan pursuant to § 54.202(a). The information shall be submitted at the wire center level or census block as appropriate.

- <116> How (USF) was used to improve service coverage
- <117> How (USF) was used to improve service capacity
- <118> Provide an explanation of network improvement targets not met in the prior calendar year.

Name of Attached Document (.pdf)

**Line 510**  
**Processes and Procedures to Ensure Compliance with Service Quality Standards**  
**and Consumer Protection Rules**  
**Per FCC Form 481 Instructions**

This document details the processes and procedures that Hood Canal Telephone Co., Inc. (the "Company") follows to ensure compliance with service quality standards and consumer protection rules as laid out in FCC Form 481 Instructions.

For service quality standards that are affected by plant issues, the Company engineers and installs its plant and other facilities in such a way as to ensure, to the greatest extent possible, compliance with service quality standards that exist at the time that the plant and facilities are constructed.

In addition, employees are periodically briefed on service quality standards and consumer protection issues. In particular, if any set of issues appear to be prevalent, employees are given briefings on how to handle such issues. A recent example is the call completion problems that have arisen and the customer calls that are generated as a result. Although this is not a service quality problem caused by the Company, it does affect customers of the Company and, therefore, deserves the attention of the Company employees.

The Company also periodically reviews its operating procedures to be sure that those operating procedures are in compliance with service quality standards and that the operating procedures are not in violation of consumer protection rules. If questions arise, legal counsel is sought as needed.

If complaints are filed with the Company related to service quality standards or consumer protection rules, the complaint is immediately investigated, the matter tracked and any corrective action noted. This process ensures that problems are addressed and corrections made. It should be noted that the Company has received no customer complaints in the past five years regarding service quality standards or consumer protection rules as they relate to the service offered by the Company other than call completion issues, which, as noted above, are not caused by the Company.

LINE 610  
STATEMENT DEMONSTRATING FUNCTIONALITY IN EMERGENCY  
SITUATIONS.

At line 600 of FCC Form 481, Hood Canal Telephone Co., Inc. ("Hood Canal") certified that it is able to function in emergency situations as set forth in 47 C.F.R § 54.202(a)(2). This means that Hood Canal has reasonable amount of back-up power to ensure functionality without an external source, is able to reroute traffic around damaged facilities and is capable of managing traffic spikes resulting from emergency situations. This statement will detail how Hood Canal is prepared to ensure continued service in an emergency situation.

Hood Canal has a back-up generator available with a minimum of a four hour power supply for its central office. In addition, it has portable generators available for remote sites.

Hood Canal has route redundancy for long distance service, E-911 trunking and SS7 signaling trunking.

Hood Canal's outside plant is designed, engineered and built with sufficient capacity to handle traffic spikes resulting from emergency situations and has been able to do so in the past. Hood Canal is in an area where severe weather strikes periodically and has been able to handle communication needs at those times and has the experience from those situations to be able handle such emergency situations in the future.

In the case of isolated groups of customers that may suffer damage due to a cable cut, Hood Canal maintains sufficient staff and other resources to be able to put customers back in service in a very short amount of time. Hood Canal's emergency service equipment is located within its exchange and requires very little time to dispatch.

### HOOD CANAL COMMUNICATIONS

Hood Canal Communications has been the local telecommunications company serving the Union, Washington, area since 1934. Since its inception, the company has been dedicated to developing and operating a modern, state-of-the-art communications network that provides high quality customer services and products at reasonable rates.

The company has accomplished these objectives, notwithstanding the higher costs of serving rural areas in the State of Washington and when few, if any, other telephone companies were interested in serving our communities. It has served, and intends to continue to serve both residential and business customers in our service area with high quality telecommunications services at rates that are competitive and affordable.

In addition to our basic telephone services, Hood Canal Communications offers advanced telecommunications services to its rural communities, including Internet access, high speed data services, special calling features and voice mail service. Such basic services are comprised of several components, which at a minimum include:

<u>Services Offered</u>	<u>Monthly Charge *</u>	
	<u>Residence</u>	<u>Business</u>
Single-party, voice grade access to the public switched network, including an unlimited amount of local calling	\$13.75 **/***	\$19.50 **
	<u>Charge *</u>	
Touch calling (dual tone multi-frequency signaling, or its functional equivalent)	There is no charge by Hood Canal Communications for this capability.	
Access to operator services	There is no additional charge by Hood Canal Communications to end user customers for the ability to call the operator. However, the call may involve a charge depending on the service requested and the rates of the company whose operator handled the call.	
Access to Emergency 911 service	There is no additional charge by Hood Canal Communications to end user customers for the ability to access Emergency 911 service.****	
Access to Directory Assistance	There is no additional charge by Hood Canal Communications to end user customers for the ability to call Directory Assistance. However, the call may involve a Directory Assistance charge, the amount of which depends on the area called and the rates of the company whose operator provided the directory information.	
Access to interexchange (long distance) service provider(s)	There is no additional charge by Hood Canal Communications to end user customers for the ability to place and receive toll calls through long distance networks of long distance carriers that offer service through the company's local network. However, toll calls may involve a charge from the long distance carrier depending on the type of call.	

Toll limitation service for qualifying low-income customers

There is no additional charge by Hood Canal Communications to qualifying low-income customers for toll blocking service. Qualifying low-income customers are generally participating in the Lifeline program.

- \* The charges set forth are subject to change, and in some instances are subject to change without notice. Certain non-recurring charges may also apply to installation or change of service.
- \*\* In addition to these charges, a Federally-mandated end user surcharge and other Federal, state and county taxes and surcharges apply.
- \*\*\* Discounts off of this rate are available to qualifying low-income customers.
- \*\*\*\* State and county taxes apply (currently \$0.95 per line, per month) to fund the provision of this capability.

Hood Canal Communications participates in the Federal Lifeline and Link-Up Programs, as well as the Washington Telephone Assistance Program ("WTAP"). Under these programs, Hood Canal Communications offers to qualifying low-income customers a discount off the monthly rate for basic residential exchange service. Hood Canal Communications current discounted monthly rate for Lifeline residential service is \$8.00, while installation charge for such service may be discounted under the Link-Up Program or WTAP.

These services are available to all qualifying customers of Hood Canal Communications. The charges associated with these services are reflected each month on the regular telephone bill along with other charges for services provided by the company. Other telecommunications services are available by contacting the Hood Canal Communications Business Office at (360) 898-2481 or 1-800-356-9989 if calling from outside the company's local calling area.

HOOD CANAL TELEPHONE COMPANY  
522419

Line 1222 Details on the number of minutes provided as part of the plan.

The Company only provides its lifeline customers a flat rate local service. There is no measured local service provided, so the number of minutes provided is not necessary.

Line 1223 Additional charges for toll calls, and rates for each such plan.

The Company does provide access to toll service providers to its lifeline customers. The lifeline customer has to choose it's own toll service provider, so no additional charges are noted or required by the Company.
