Subject: "Petition for Exemption from [WAC 480-30-191\(1\)\(a\)](#)".

In reference to application docket, TE-210118, Seattle Splash Tours is petitioning for an exemption from WAC 480-30-191(10(a)) because we cannot find insurance through an admitted carrier due to the highly specialized type of service provided by the Hydra Terra amphibious vehicle. We have completed an extensive search with insurance brokers throughout Alaska, Texas, and Washington and despite our diligent efforts we have not been able to procure admitted insurance in the state of Washington. Our unique class of business also requires multiple policies of coverage including Commercial Auto, Marine and General Liability. The Policy that we have obtained does cover all of these. These multiple layers of coverage are not obtainable through any admitted carriers.

Seattle Splash Tours has secured a policy from Prime Insurance Company that is registered with the Surplus Lines Association of Washington and carries an AM best rating of A. Additionally, we are purchasing this policy through Worldwide Facilities, LLC, which is authorized to produce surplus lines insurance in Washington by the Washington State Office of the Insurance Commissioner.
