WATER SERVICE
RULES AND REGULATIONS

Rule 4 – Definition of Service

Service will be supplied as described in these rules and under the applicable rate schedule(s). Service will be supplied only to those who secure their source of water exclusively from the Utility, unless otherwise provided under written contract. Water service will be used only for the purpose specified in the service agreement and applicable rate schedule(s). A customer will not sell or permit others to use such service, unless authorized to do so under written contract with the Utility.

The customer will not increase demand or use of service as stated in the application for service without giving prior notice of such increase. In the event of such increase, the customer is required to pay the Utility's regularly published rates from the date of increased service or initial use of the service.

Whenever the customer wants to permanently discontinue the use of water, the customer must cause the fixture to be removed and the branch pipe or service supplying the same to be capped or plugged, and must notify the Utility in writing before any reduction in charge will be made.

Rule 5 – Disconnection Visit Charge

When a Utility employee is dispatched (single visit) to disconnect service, that employee must accept payment of a delinquent account and service will not be disconnected. If amount owing is tendered in cash, Utility employee will not be required to dispense change for excess over the delinquent amount due and owing. Any excess payment will be credited to the customer's account. If a disconnect visit charge is specified in **Schedule X**, the Utility may accept payment of the disconnection visit charge at the door or charge it on the customer's next bill.

Disconnection visits will only be made following the required notices to the customer. If the delinquent account payment is not received, the customer will be disconnected, and the disconnection visit charge will not be applied to the customer.

Rule 6 – Reconnection Charge

When a Utility employee is dispatched (single visit) to reconnect service to the Utility distribution system, a reconnection charge will apply if specified in **Schedule X** to recover the cost of disconnection and reconnection visits. Such charge is to apply only in cases where service (which includes but is not limited to violations of Rule 17 – Disconnection of Service) has been discontinued. The Utility will restore service when the cause of discontinuance has been removed or payments of all proper charges due from customer have been made. No charge will be made for reconnection of service if the shut-off was made for the convenience of the Utility in making repairs, changes, etc.
