Fourth Revision to Sheet No. 57.2	Schedule 57	Mercury Vapor Street Lighting Service – No New Service

The Commission's Order 15 authorized a revenue requirement increase of \$7,998,615 to the Company's base rates for the second year of the rate plan.<sup>1</sup> The Company respectfully requests an effective date of September 15, 2017.

The revenue requirement increase reflected in the attached compliance tariffs is 2.34 percent overall. The average residential customer using 1,200 kWh per month will see an increase of \$2.59 per month. The filing also reflects an increase in Pacific Power's Low Income Bill Assistance Program benefits per participant of 4.7 percent.

On June 28, 2017, the Company submitted attestations and final project costs of the Company's Supervisory Control and Data Acquisition Energy Management System (SCADA EMS), the Union Gap substation, and Jim Bridger Unit 4 investments included in the second year rate adjustment in accordance with Order 12.<sup>2</sup>

During the cost of service, rate spread, and rate design collaborative, parties did not reach a consensus on rate spread and therefore agreed to let the second year rate increase go into effect on an equal percentage basis for each schedule. The collaborative is continuing to meet to discuss residential rate design issues for future Company rate filings.
