My wife and I are frequent users of a very excellent service called Whidbey Seatac Shuttle and we do not understand your recent attempt to deny the ability to recover spiking fuel cost via fuel surcharges. The shuttle service is a vital and integral part of our transportation to Seatac without any increase of fare the past 6 years. The surcharges have permitted them to provide us with a stable fare in an environment of increasing cost. We urge you to consider the value this service provides us at a fair and reasonable price. JON AND TERRI KRUSE
