**Re: Docket UG-210194 (Advice No. 2021-07)  
PSE Natural Gas Tariff Revision – Do Not Redocket**

Dear Mr. Johnson:

Puget Sound Energy ("PSE") hereby submits in connection with Docket UG-210194 a revised work paper to replace the work paper which accompanied PSE's March 22, 2021 filing submitted under PSE's Advice No. 2021-07.

The purpose of this substitute filing is to supplement the work paper in the following ways after considering some informal data requests from Commission Staff:

- Include the derivation of the \$5 rate per block of Renewable Natural Gas ("RNG") in the work paper that was previously explained in the original cover letter.
- Determined the smaller amount of therms a participating customer would receive per block of RNG, considering the impact of including the \$1.5M in IT start-up costs. There may be other impacts on the assumptions, as well, impacting levels of participation and ability to fully recover costs.

The work paper submitted with this filing contains commercially sensitive information, disclosure of which could adversely affect PSE's ability to effectively negotiate favorable gas supply agreements for its customers. Therefore, PSE requests that work paper tabs marked confidential be accorded confidential treatment. Pursuant to WAC 480-07-160, they have been marked "Shaded information is designated as confidential per WAC 480-07-160."

Mr. Mark L. Johnson, Executive Director and Secretary
