RE: UW-240589, Summit View Water Works LLC, General Rate Case

Dear Mr. Killip:

Summit View Water Works LLC (SVWW or Summit View) submitted its general rate case on July 31, 2024 under the above docket with the Utilities and Transportation Commission (UTC), seeking to recover substantial operating expense increases.

Commission staff has now notified the company that it has been unable to complete its review within the statutory deadline and has asked Summit View to extend the effective date of this general rate case filing one month (from September 1, 2024 to October 1, 2024) to allow staff time to complete its review.

Therefore, SVWW hereby requests that the effective date for docket UW-240589 be extended to October 1, 2024 and trusts this will be the only request for extension particularly in light of the substantial interval from the company's last rate adjustment. SVWW looks forward to working with staff to complete this rate case review within the next month.

Please send any questions to me at ann@kalahikiconsulting.com or call 360.561.9717 if I can provide further clarification or answer questions of staff on this filing.

Sincerely,

Ann LaRue, CPA
