<b>Total Net Power Cost Adjustment - Pro Forma</b>			<u>36,573,303</u>			<u>36,573,303</u>	

**Description of Adjustment**

The adjustment projects power costs by adjusting sales for resale, purchase power, wheeling and fuel in a manner consistent with the contractual terms of sales and purchase agreements, and normal hydro and weather conditions and incorporating changes agreed to in the WIJAM MOU. This adjustment reflects pro forma power costs for the calendar year 2024. The use of pro forma net power costs in results is consistent with approved treatment in Docket UE-191024. Company Witness Ramon J. Mitchell provides detail testimony on projected net power costs reflected in this filing.
