Subject: Public Comment: Docket 101661 & Docket 042090

I am a frequent user of Whidbey Seatac Shuttle. I do not understand your recent attempt to deny them a way to handle the spiking fuel costs, historically through fuel surcharges. Without passing on a fare increase for 6 years, fuel surcharges has allowed them to fairly raise and lower the cost to me according to the fluctuating fuel prices we all endure. I urge you to consider the value their service offers the island, while providing this service at a fair and reasonable price.
