- 15 2. After the June 29, 2004 prehearing conference before Theodora M. Mace,  
16 Administrative Law Judge, the Complainants hereby move for voluntary  
17 dismissal of their complaint, without prejudice. The Complainants make this  
18 motion under WAC 480-07-380(3) and/or by analogy to CR 41(a). The  
19 Complainants find that to continue with the complaint will incur attorney fees  
20 and expenses for Marbello which Marbello would attempt to recover with future  
21 increases in utility rates. The Complainants reserve the right to file new or  
22 additional complaints if they find that Marbello's current or proposed rates are  
23 unfair, unreasonable and/or discriminatory; that Marbello provides poor service  
24 quality and/or maintenance or erroneous information to customers; and/or that  
25 the company fails to report results of their water quality testing to ratepayers.
