

Announcement Date: June 28, 2007
Effective Date: Not Applicable
Document Number: PIDM.06.28.07.A.04775.PID_Mgmt_Process_Outcome
Notification Category: PID Management Process Notifications
Target Audience: CLECs, Resellers
Subject: Outcome of PID Management Process Meetings

In May 2006, Qwest announced a region-wide discussion of specific Performance Indicator Definitions (PIDs or the PID) and Qwest Performance Assurance Plan (PAP) issues under the process that is described on the **Qwest Wholesale Performance Information** website at: <http://www.qwest.com/wholesale/results/index.html>. The invitation was sent to all CLECs that were currently operating under an interconnection agreement within Qwest's fourteen-state local service region. This notice is also being sent to all CLECs currently operating under an interconnection agreement with Qwest in the fourteen-state local region regardless of PAP opt-in status.

Those discussions were completed and an agreement was reached with certain participating CLECs. Some modifications applied in all states while others applied in only some states. A summary description of all agreed upon modifications is attached. In addition, the summary will be posted to the above web page under the heading **Accepted & Disputed Updates**. A download will be available under the PID/PAP Agreement Updates bullet.

These agreed to changes have also been incorporated into revised versions of the PID and PAP submitted to each of the 14 states. The filings were made between Friday, June 22, 2007 and Wednesday, June 27, 2007. Where permitted, the changes will modify the exhibits B and K of your interconnection agreement with Qwest.

If you have any questions, please contact either Kathy Haile at (402) 344-9695 or Kathleen.Haile@qwest.com or myself at (206) 345-5077 or Chris.Viveros@qwest.com.
