13. Vehicle Inspection Data

14. Vehicle Inspection Violations

15. Driver Inspection Violations

16. Relevant Carrier History:

I conducted a compliance review on this provisional household goods carrier during July-August 2014. Numerous violations were found during that investigation and the company received penalty assessments for serious violations of driver qualifications, (no medical examination certificate), and vehicle maintenance, repair and inspection (no annual truck inspection). The carrier has complied with commission orders in the payment of those penalties.

17. Findings:

This carrier has corrected the violations noted from the prior review. One paperwork violation was noted of the driver qualification files; the owner had failed to verify his doctor is on the national medical examiner's registry. This compliance review resulted in a satisfactory safety rating.
