COMMISSION

In both dockets, the Commission approved modifications of the at-grade railroad crossings by Order. Orders in both dockets state:

Upon completion of the proposed modifications, (City of Lakewood/WSDOT) must notify the Commission within 30 days. Acceptance of the changes is subject to inspection by Commission Staff, verifying that the crossing is in full compliance with applicable laws, regulations, and the conditions set forth in this Order.

The City of Lakewood and WSDOT informed Commission Staff of project completion. Staff met with the agencies and contractors at the crossings on May 15, 2017, to inspect and review changes. Staff reinspected both crossings on November 20, 2017. Records and photographs confirm modifications are complete and in compliance with Commission Order.

This matter is now closed.
